Metrics for school return

1. Points are awarded for Warren County positive cases per 100K and Test Positivity.
2. Combination of those two metrics point values will determine school "status".
3. A "new" status in 1 week triggers an "alert" message to the District metrics committee
4. A "new" status for 2 consecutive weeks triggers the following:
   A. Meeting of District metrics committee to consider internal data
   will look at Knox, Mercer, Henderson County same data for "regional" trend
   C. Recommendation from that committee will be considered

ective set of internal data driven conditions that would necessitate change in concert with community based data..

* Data is on a two week lag
