Student Name: _____ Graduation Year: _____

Student Service Learning Hours Record

Students are to complete this form anytime a service learning activity is completed. This document is necessary to turn in to the high school counselor to show proof that the required hours have been fulfilled.

Students are required to complete 40 service learning hours as stated in the graduation requirements of the handbook. Activities should be completed for an individual outside the immediate family and must be done without pay in order to meet service learning guidelines. Students completing service hours for another school group may also use those hours towards their service learning graduation requirement.
