

November 9, 2020

Dear North Babylon Staff Members:

I am reaching out today to clarify the expectations for the daily health questionnaire.

The district has decided to use the MyWorkBadge app as a vehicle for completing the mandatory health questionnaire.

It is our expectation that every member of the North Babylon School District staff uses the MyWorkBadge app, or the provided alternatives, before entering the workplace to complete the health questionnaire daily.

After completing the questionnaire, if you are not in the green zone please call your direct supervisor and alert them to your circumstance.

A PDF of the health questionnaire can be found on the website of each school. You may download a copy, and fill it out on paper, but it must then be entered through the computer upon arrival at work. Speak directly with your supervisor if you have any questions.

If you are unable to use the app you can log in through a computer at:

<http://live.myworkbadge.com/myschoolbadgahaform>

Any technical issues with logging on can be directed to Nicole Losito at nlosito@northbabylonschools.net.

I hope this information is helpful. If you have any additional questions, please feel free to call me at 631-620-7004 or email me at aleeds@northbabylonschools.net.

Sincerely,

Dr. Allyn M. Leeds

Safety and Communications Coordinator

North Babylon UFSD
