SCHOOL PROPERTY

A. Surplus Land or Buildings

The Superintendent of Schools or their designee will identify School District land or buildings no longer required for School District purposes and recommend to the Board procedures to be followed for the sale or disposition of such property, keeping such procedures within current appropriate laws and any deed restrictions associated with the property in question. Board approval is required for both the process to be followed and the ultimate sale or other disposition.

B. Surplus Equipment or Supplies

The Superintendent or their designee will periodically review School District equipment and supplies and identify any that are thought to be obsolete and not able to be salvaged, as well as those that cannot be utilized effectively or economically by the School District. The Superintendent or their designee is authorized to dispose of any such equipment and supplies in a commercially reasonable manner.

C. Easement onto School Property

The Superintendent or their designee will provide a recommendation to the Board related to a request for granting an easement onto school property.
