

Should I be concerned about my internet speed? Find out!

The FCC believes the minimum download/upload speeds for quality service are 25/3mbps respectively.

Go to www.mainebroadbandcoalition.org/speedtesting-link
to see what your speed is.

You may be amazed!

Tell us about your internet service

The Sumner Broadband Committee is gathering information from residents and businesses through surveying, mapping and testing internet speeds to help us all understand the service currently available and where and how it needs to be improved. We are advocates for fast, flexible, affordable and reliable internet service for all residents and businesses in our town.

Your response will provide the basis for next steps to meet the future needs for internet service in Sumner. Click on this link to complete a survey:
