June 2019 Board Report

- MCHS summer school has been a success to this point. Sarah Pearson has kept me updated and some are close to finishing and the others are on track to attain the needed credit. We have approximately eighty-two students enrolled this summer where some are in need of multiple classes. This number accounts for approximately twenty percent of our student body and highlights an issue that we plan to address through student services and teacher development.
- There are some minor conflicts being ironed out with the bell schedules for the Jr/Sr High building. At MCHS, an advisory/enrichment period is being added to the end of the day to provide a common time for meetings and academic assistant.
- We have transitioned from a 5.0 grading scale to a 4.0 to align with the norm amongst a majority of surrounding high schools, colleges and universities, as well as our scholarship applications.
- With assistance from Mr. Holt, we have started reassigning areas in the main office to maximize the storage spaces and to make our process more efficient.
- Our parking lots were resealed last week and are scheduled to be restriped this week.
