Volume 3 Issue 1

August 22, 2019

Saint Charles Catholic School

THURSDAY FLYER

FROM THE DESK OF MRS. SCHEID

CALENDAR OF EVENTS:

Aug. 23—All School Liturgy for grades 1-8 at 8:00 am

Aug. 26—1st day for Pre-kindergarten

Aug. 27—1st day for Pre-school

Aug. 30—8th Grade Retreat

Sept. 2—No School, Labor Day

Sept. 13—All School Liturgy for grades K-8

Welcome Back to School

The first day of school went very smooth. We came together as a school family with a prayer service in which each student had time to reflect how they invite Jesus into their lives every time they show kindness to others. The teachers planned many community builders and activities to enable students to get to know each other and their teachers. The staff reported a very successful day and are ready to begin a full year of faith–filled learning .

Parent/Student Handbook and Emergency Medical Forms

You should have received a copy of the St. Charles Parent/Student Handbook. The handbook can also be found on our school webpage. I am asking for all parents/guardians to read the Handbook thoroughly and discuss the details with their children. The parent signature page can be found in the back of the handbook. Please sign and return this page to the school as soon as possible.

You should have also received a copy of the Emergency Medical Form. Please make any necessary corrections and then return this form to school as soon as possible. Thank you for your prompt attention to this matter.

Cafeteria News

You can find the menus each month on the school web site, www.sccslima.org or through our school app, St. Charles Redwings. These lunches are a great deal for a healthy and nutritious lunch. K—4th grade is $2.65 and 5th—8th grade are $2.70. Lunches can be prepaid and student's use a 4 digit code to access their account. Please review this account number with your child.

Morning Drop-Off

A reminder that students can be dropped off on the Primrose or Cable Rd sides of the school beginning *at* 7:30 am. We can unload at least four cars at a time to keep the lines moving so your child does not have to wait for a staff member to open their door. The front of the school is **not** a drop off zone as the doors will be locked. Thank you for your cooperation. Students are dismissed to their classrooms at 7:45 and the tardy bell rings at 7:50.

Afternoon Pick-up

We appreciate your patience as we work through our afternoon dismissal process. You will find the amended row list attached to the flyer. Our goal is to get our students dismissed as safely and efficiently as possible. Please take time each morning to review with your children how they are getting home to help reduce the number of calls being made to the office. If there is change to their normal routine please send in a note to your child's teacher.

Ohio Alerts

You can receive text alerts from the administration by signing up for http://ohioalerts.org/StCharles. Information about upcoming events, delays and cancellations will be sent directly to the phone you register. This is different than LCC's alerts so if you have children at each buildings be sure to sign up for both!

Respect and Responsibility

Our Positive Behavior Theme this year is "Respect and Responsibility". The teachers and staff use life skills to discuss expected behaviors and reward the students with verbal praise on a daily basis. This year we want to encourage the students to respect themselves, respect others, and take responsibility for their actions.

Parish News

Looking for Child Care Providers

Would you like to babysit occasionally to make some extra cash? St. Charles is looking for adults to babysit during Sunday 10:30 Mass and at other events throughout the year. You must have Virtus training and background checks. Please call the Parish office at 419-228-7635 or visit the welcome desk for more information.

LCC News

For the first time, the Lima Senior Spartans and Lima Central Catholic Thunderbirds will go head-to-head during the regular season on the gridiron. Kickoff will be at 7 p.m. Thursday, Aug. 29, at Spartan Stadium. It will kick off both schools' regular season.

While the teams will battle each other for the win, the two schools will join forces for a good cause. The schools will raise money for the American Cancer Society. he night will begin with cancer survivors walking a lap around the track at 6:30 p.m. Any survivor is invited to participate and will get a Relay for Life Survivor T-shirt. Survivors should begin gathering near the field at 6:15 p.m. Stadium gates will open at 5:30 p.m.

St. Charles After School Bowling
Grades 1 to 8

Westgate Lanes is forming a bowling league for students. Bumper bowling is available for 1st graders. Bus transportation is provided by Westgate Lanes. This league will bowl on Thursdays starting SEPTEMBER 5TH immediately after school. All students must be registered by AUGUST 30TH by turning your form in to the office.

ONLY A TOTAL OF 120 FORMS FOR ALL 3 SCHOOLS WILL BE ACCEPTED. A WAITING LIST WILL START AFTER THAT.

Parents will pick the students up at Westgate by 4:00 pm and sign them out at the checkout table.

The fee is $ 10.00 per week. *Any student having more than 2 weeks payments past due may be suspended from participation until payment is made in full.*

The cost includes the bus ride, shoes, ball, bowling and snack. We have included the snack cost in the weekly fees. The student will have their choice of 2 snacks each week. Additional snacks can be purchased at $.75 each. Snack choices are: cookie, pizza square, popcorn or a small soft drink.

The league will meet for 15 weeks. Coaches are available to work with the children. Parents are invited to visit Westgate to observe the learning and fun activities. This program is sponsored by Westgate lanes and is NOT a school sponsored activity. If you have any questions please call Westgate @ 419-227-7231and ask for Andy or Wes Johnston.

**After school Lane Monitors are needed! **
Volunteers are required to pass an online course and complete a mandatory background check. Volunteers will receive free after school bowling fees for their child each week. Only 6 positions open, stop by Westgate lanes and fill out an application. Job duties: riding the bus to the school, helping check students in, monitoring children during bowling & clean up after the completion of bowling.

The Ohio State University at Lima

girls who code

Only 18% of all U.S. computer science graduates are women. By 2020, there will be 1.4 million computer science jobs available, and women are projected to hold 3% of those jobs.

Help Change These Stats

Ohio State Lima is forming a Girls Who Code Club on our campus for your students.

What Are Clubs?

FREE – After school computer science classes that meet during the academic year.
WHO – Open to girls in grades 6-12
WHERE/WHEN – Ohio State Lima Campus- Mondays from 3:30-5pm from September 30 to December 2, 2019

What Do Clubs Teach?

Project-based computer science – Students learn core concepts through projects based on their interests, such as music, art or games.

Why Does Girls Who Code Matter?

- Tech jobs are among the highest-paying and fastest growing in the country, **yet girls are left behind**.
- While girls' interest in computer science ebbs over time, the **biggest drop-off happens between the ages of 13-17.**
- **The gender gap in computing has actually been getting worse since the 1980s.** In 1984, 37% of all computer science graduates were women. Today, that number is just 18%.

Girls Who Code Works!

Founded with one single mission: to close the gender gap in technology.

- **10,000 Girls Who Code alumnae**, the largest network of female computer scientists.
- 65% of Clubs participants say they are **considering a major or minor in Computer Science** because of Girls Who Code.
- 57 top companies have **pledged to hire Girls Who Code alumnae.**

Will It Be You?

To register your child for the upcoming club session, complete the online registration forms at *http://lima.osu.edu/gwc*. The club is open to the first twenty students who register.

LIMA

girls who code

CLUBS

OVERVIEW

Girls Who Code is a national non-profit working to close the gender gap in technology. Our Clubs are free after-school programs for 6-12th grade girls to use computer science to impact their community and join our sisterhood of supportive peers and role models.

CLUBS TEACH GIRLS

Sisterhood. Club girls join a safe and supportive environment of peers and role models and learn to see themselves as computer scientists. Beyond the Club, girls can tap into an alumni network of tens of thousands of girls across the country who are using computer science to solve problems they care about.

Code. Clubs learn the concepts of loops, variables, conditionals, and functions that form the basis for all programming languages –– whether they want to build a website, an app, or a robot. Returning Clubs girls can deepen their programming knowledge through extended activity sets.

Impact. Club girls work in teams to design and build a Computer Science "CS" Impact Project that solves real world problems they care about through code.

A TYPICAL CLUB SESSION

Women in tech spotlight.
Girls research a female computer scientist.
(10 min)

Girls Who Code Standups.
Girls build community by sharing what they're working on and why it matters to them.
(15 min)

Code & Impact.
Girls spend time coding independently or work together to design and build their CS Impact project.
(60 min)

YEAR AT A GLANCE

While the timing may vary, Clubs follow this roadmap throughout the year:

DESIGN

- As a group, Clubs research their community, define an issue and plan their CS impact project.
- Clubs also set goals for their project's and each girl's success.

BUILD

- Girls work individually to learn the computer science concepts they'll need to build their CS Impact Project.
- They learn these concepts through lessons that vary in difficulty, programming language, and interest such as music, art, game design, and storytelling.
- At the same time, girls identify individual responsibilities for the CS Impact project and learn real life skills to work as a team to complete it.

TEST

- Clubs test their project by sharing it with their community and identifying whether or not they met their goals.
