RBCHS NEWSLETTER MAY, 2019

R-B Students Rock the ISA!

In the 2015 school year, the federal government required schools to assess students in science. In 2016 The State of Illinois created the Illinois Science Assessment (ISA) that requires all students in 5th and 8th grade and all students in biology to take the assessment.
The ISA is based on the Next Generation Science Standards (NGSS) which The State Board adopted in 2014. The NGSS are the most comprehensive science standards that Illinois has ever had. They are more rigorous and detailed as they integrate the content of science with the practices of science. The table below reflects the percent of R-B students who met standards on the ISA and their overall score. Over the past three years R-B students far outperform state averages and two of the past three years R-B students have posted the highest scores among high schools in McHenry County. Please see the charts below.

2016	Percent of students meeting standards	Average Score	2017	Percent of students meeting standards	Average Score	2018	Percent of students meeting standards	Average Score
R-B	65.4	319	R-B	58.3	313	R-B	62.2	318
McHenry County High Schools	43.3	301	McHenry County High Schools	47.5	305	McHenry County High Schools	48.06	306
State of Illinois	40.8	300	State of Illinois	40.2	300	State of Illinois	40.6	300

We are very proud of the student performance on the ISA. Thank you for the opportunity to educate your children.

Hello RB Parents of the Freshmen Class of 2023!

We are very excited that your child will be attending Richmond-Burton High School and we look forward to meeting your student on Orientation Day. As you may know, our school participates in the nationwide Link Crew Program, an organization whose sole purpose is to help freshmen feel more comfortable as well as help them achieve success in their first year of high school.

The Link Crew freshmen orientation and transition program is designed to both welcome and support freshmen by assigning them a junior or senior Link Leader as a mentor during this first year. This Link Leader is a responsible older student who was hand selected from a large pool of applicants and has met the qualifications of being a good role model and a positive leader on our campus. Following is some information to let you know what you and your student can expect in advance of their first day of school.

SAVE THE DATE:

LINK CREW FRESHMEN ORIENTATION

Wednesday, August 14, 2019 from 8am-12pm

Transportation will be provided by the regular bus schedule for the school year.

1.) A day or two before orientation your student will also receive a phone call from her or his Link Crew Leader personally inviting your student to orientation day and giving the details of where to be and what time;
If no call is received, all freshmen are welcome and will be partnered with a leader that day

2.) Your student is encouraged **not** to bring backpacks, purses or other like items as the day is quite active;

3.) Because the day is active, please make sure that your student wears comfortable clothing that does not restrict movement.

This is a student only function so we encourage you to let your child attend on his or her own. Please feel free, to email with any questions. *(lslavin@rbchs.com)*

We look forward to meeting your student on orientation day!

LATE START DAYS

It is part of our mission as the Richmond-Burton Resource Allocation Team to reevaluate logistical procedures in order to support our school, students, staff, and instruction. The Resource Allocation Team has identified an opportunity to increase staff collaboration time, a significant indicator of school success, by six hours when moving late start days from Monday to Wednesday. Feedback from students and parents indicated that changing the late start day would be of benefit. In addition, 87% of the staff at Richmond-Burton High School believed having extra time during the week to work on curriculum would be beneficial. As a review, late start days are designated for teachers to review lessons and assignments, disaggregate test data, share and model teaching strategies, and make adjustments to support all students. By the end of the 2018-2019 school year, we will have lost 6 hours of curriculum time due to holidays occuring on late start Mondays. Changing the late start day from Monday to Wednesday would greatly benefit our staff by allowing more professional development time so that they can continue to do their best for our students. **Please note that in the 2019-2020 school year, late start will be on Wednesdays.** Thank you for your continued support and the opportunity to educate your child.

DRAMA CLUB NEWS

RB Drama Club each Monday has been focusing on skills needed to survive and thrive in Theatre! We've covered lights, dancing, characterization, and sound with time left for some improv and planning for next year. The students that have attended continue to grow in their skills and knowledge, which will help them contribute more to RB Drama in the future. For those seniors who have been a part of RB stage productions, thank you for your time and talents-best wishes for the future. For those underclassmen returning in the fall-we look forward to working with you on stage, backstage, in the booth, and at Drama Club.

GUITAR CLUB

With the end of the year 2019 fast approaching, let me take just a minute of your time to share with you some stuff. Our show on April 6th was incredible and the performances were stellar. If you weren't there, you really missed a show! Box House is a band that you should see play live soon! This band opened the show with a one hour long set of original music! They had won the Chicagoland's Got Talent Competition last year and their prize was a block of time in a Chicago recording studio. They recently finished production and they have released the first Box House single "Lovesick #2". You can even find it on Spotify and all major music outlets online. Box House is made up Drew Zaremba on percussion, Luciano Passaretti on bass, Jon O'Brien on guitar and Becky Sargeant on guitar and vocals. Then Liz Nelson came out to perform a brief but powerful set of original and cover tunes. Then our very own Mrs. Beth Marshall came out to sing "Amazing Grace" with Señor Mac accompanying on the guitar. As that song ended, the members of Box House and Tyler Prondzinski came out to jam an incredible rendition of an old rock and roll song by the Outlaws. Following that (tough act to follow - haha) Tyler Prondzinski performed solo on the piano and acoustic guitar. Then Señor Mac and Tyler played 5 songs to include songs by Chuck Berry, The James Gang, and Billy Joel! Tyler is a junior and the shows in November and then the spring of 2020 will be the pinnacle of his career here at RBCHS. I have played music alongside Tyler for three years now and I can honestly say that he is a true musician and an excellent performer.

The 3rd major act of the night was Maeve Kelly! Make plans to see Maeve sing and perform soon, she has a great voice and her guitar playing is among the best! Finally Box House returned to play a few songs with Maeve, and then the show concluded with an hour long set of cover tunes by Box House. Perhaps the highlight was the last song titled "Where did you sleep last night?" by Huddie WIlliam Ledbetter (aka Leadbelly). The boys dedicated this song to me - Señor Mac - as a token of their gratitude for having the platform for them to perform in the Guitar Club. To be honest, I had tears of joy in my eyes as they played a song that I love to hear and sing and play. Luciano even learned to play slide guitar for the song! Thank you to all the students who participated and thanks to the volunteers who help. Guitar Club is a blessing to me and I will cherish the times we played together for the rest of my life! Tyler Prondzinksi and Liz Nelson - the next show is all about you! ROCK AND ROLL

ACADEMICS

ENGLISH

ENGLISH 3

In English 3, students are studying the Salem Witch Trials and completing a mini DBQ in preparation for reading and studying Arthur Miller's *The Crucible.* We will read *The Crucible* as a class - occasionally acting it out. Students will study conflict, characterization, and vocabulary while reading. There will be a quiz after Act 1 and 2, and a quiz after Act 3 and 4. The quizzes are aligned with Common Core Standards. *The Crucible* will take us up to the end of the year.

ENGLISH 1

Currently, English 1 students are wrapping up our *The Miracle Worker* unit. Although most people are familiar with Helen Keller, the students enjoyed learning more about her struggles and were able to put themselves in her shoes. We read the play aloud in class, with each student assigned 1-2 characters throughout. Students will take the unit test and watch the film this week.

We will finish up the year with a nonfiction and fiction short story unit. In the nonfiction unit, students are using newer educational tools like Hyperdocs to learn about diverse perspectives in America. They will read multiple nonfiction articles and stories, then end the unit with an SAT-style timed writing. As freshmen, the SAT essay may seem far away, but it is important that they start becoming more and more familiar with it because junior year will come quickly!
In the fiction unit, students are reading four thrilling short stories ("Lamb to the Slaughter," "The Interlopers," "Nightmare in Yellow," and "The Pedestrian.") and ending the unit with a quiz.

PHYSICAL EDUCATION

Greetings from the RB P.E. department!

Back in the 2016-17 school year, the state of Illinois started mandating that all schools that have grades 5th, 7th and 10th grade students in their district to start reporting the fitness levels of these students to the state. In order to do this, the state came up with four tests that students need to perform and be reported back to the state. Those tests are Aerobic capacity (Pacer test), Muscular strength (Push-up test), Muscular endurance (Curl-up test) and Flexibility (Back saver sit and reach test). Our 10th graders this year did an amazing job with their post fitness testing results! For the Pacer, 88.1% of our Boys and 81.3% of our girls met or exceeded the healthy fitness zone. For the Push-up test, 91% of our boys and 100% of our girls met or exceeded the healthy fitness zone. For the Curl-up test, 98.5% of our boys and 100% of our girls met or exceeded the healthy fitness zone. For the sit and reach test, 98.5% of our boys and 97.3% of our girls met or exceeded the healthy fitness zone.

For our overall student body. 52.6% of our students exceeded the healthy fitness zones of all four combined tests. 45.6% of our students met the healthy fitness zones of all four tests, and only 1.8% of our students did not meet the healthy fitness zone, or need to improve.

These numbers are outstanding! I praise the efforts of the Students, P.E. Teachers and Parents in this community for having such a commitment to fitness. In stressing the importance of physical fitness, we are helping our students lead healthy and happy lives. New medical data is constantly reinforcing the need for daily physical activity to not only help the body physically, but mentally and emotionally as well. Every National and world health organization stresses the importance of daily physical activity to help all individuals deal with the constant pressure that develop with daily living that affect all areas of our well-being. It is so important to build these healthy habits into our lives at an early age. These healthy habits ensure our young people have the tools and coping skills to deal with the rigors of life when they leave RB and make their own path in the real world.

With the weather getting nicer and the summer months upon us. I urge all families to make a point of getting outside and doing some light to moderate exercise together. This can be quality family time spent while nurturing healthy life long habits. I hope all of you have a wonderful, relaxing and active summer.

SCIENCE

CHEMISTRY CORNER

The chemistry classes are finishing the year working with chemical reactions. We've talked about how the chemical equation is like a recipe--you need the right amounts of each ingredient to make it work. We discussed how to make more or less of a product, similar to doubling or cutting a recipe to make different amounts. Finally, we'll be discovering how the energy added to or removed from a reaction helps to make the right products. Check your campfire temperature before starting those s'mores to make sure you get the marshmallow perfect! Happy summer, everyone!

SOCIAL STUDIES

The Social Studies department is making last minute preparations for the up and coming AP Exams. Students have an opportunity to take various AP Exams in courses like US History, Micro Economics, European History, and Psychology. Speaking of AP Psychology, the AP Psych students completed one of the years most beloved activities/experiments. Students were blindfolded for a period of 20 minutes and required to perform numerous tasks without the help of any individuals. Fellow students were present to make sure that blindfolded students did not harm themselves. Tasks performed included entering the correct gender bathroom and washing their hands, getting a drink at the drinking fountain, purchasing an item from either the cafeteria or a vending machine, or checking out a romance novel from the Library. While

blindfolded, the students would experience a concept known as sensory adaptation. Being blind would allow students other senses to expand and they would have a greater ability to hear and become more self-aware of their bodies proximity to other objects around them. Normally if conditions are right, at around 7 to 8 minutes, the blind folded student experiences sensory adaptation. It is a great time and one of the favorite activities throughout the academic year.

Also Mr. Steen Metz, a Danish Holocaust survivor spoke to the entire school in two different assemblies on April 16th. Mr. Metz's presentation was very moving as he described what it was like as a child to be arrested and put in a concentration camp. Sadly, Mr. Metz's father died of starvation while in the concentration camp but his mother survived. Students were given the opportunity after Mr. Metz's presentation to ask questions. Many thoughtful questions were asked and even more thoughtful answers were provided.

STUDENT SERVICES

Seniors and their parents… It is important that you let your counselor know about any scholarships or awards that you have been offered and plan to accept. We would love to acknowledge your accomplishments at the May 22nd Senior Awards Night, but cannot do so unless we know about them! If you would like school-based scholarship information acknowledged at Awards Night please contact Ms. Sedjo with: the name of the school you are

attending, name of the scholarship you are receiving, and the monetary value of each. You can do this by stopping by Student Services or emailing the information to ksedjo@rbchs.com

Seniors are reminded that they must request to send final transcripts to the college of their choice via Parchment. However, please note that final senior transcripts will not be available until after June 6th.

Advanced Placement (AP) exams will be offered from May 6th to May 17th, 2019. The exams will be held in room S203 at R-B unless students are specifically told otherwise. Students who are enrolled in any of the AP classes are automatically registered to take the test. On the day of the AP exams students are expected to be in the testing room no later than 7:45 a.m. for morning tests and 11:45 a.m. for afternoon test sessions. The tests are scheduled as follows:

Monday, May 6	7:45 a.m.	AP U.S. Government and Politics
Tuesday, May 7	7:45 a.m.	AP Spanish
Tuesday, May 7	11:45 a.m.	AP Physics 1
Wednesday, May 8	7:45 a.m.	AP English Literature and Composition

Junior James (Demitri) Hartnett has been selected to attend the American Legion Premier Boys State of Illinois leadership experience. Junior's Rebecca Wutz and Isabel Larsen have been selected to attend the American Legion Auxillary Illini Girls State leadership experience. Boys and Girls State are both seven-day, hands-on experience in the operation and fundamentals of government. Participation in Boys and Girls State is widely recognized by college admissions officers across the country as an indication of proven leadership skills. The programs take place at Eastern Illinois University during two separate weeks in June.

Upcoming SAT and ACT test dates and registration deadlines. All juniors took the State funded SAT on April 9th during school. However, college bound juniors may want to take the test more than once, as test scores typically improve each time you take it. To register for SAT national test dates, visit www.collegeboard.org. To register for ACT national test dates, visit the site online at www.actstudent.org. Upcoming test dates are:

Academic Summer School- Richmond-Burton is planning to offer summer school to students in need of credit recovery. Half credit courses will be offered for English, Math and Social Studies. Letters and registration will be mailed to the parents of students who qualify for one or more of these courses. Spots in all courses will be limited and filled on a first-come-first-served basis. Students in need of credit recovery in other subject areas may take summer school courses at other area schools, but must first gain approval from their Guidance Counselor.

Summer Driver's Education courses are again being offered. Information has been mailed to those students who qualify, based on date of birth. Students who live in the district but do not attend Richmond-Burton may be eligible to enroll in the class and should contact the Guidance Office to obtain registration information and requirements.

Have a safe and happy summer!
