Continuation Sheet No. 1	Policy Code:

Policy Name: Naming School Facilities	Policy Code: 7.21
	Date Adopted: 04/21/14

The Wynne School District extends the opportunity for private funding to enhance its ability to meet the needs of our students and community. To that end, the school district seeks to provide appropriate recognition to individuals, families or corporate donors for their generosity. While such recognition may take many forms, this policy seeks to establish guidelines for the naming of facilities.

The Wynne School District's Board shall approve the naming of the buildings and facilities.

A facility will be named for a donor who exemplifies values which are consistent with those of the school system.

The minimum monetary guideline needed to establish a named facility is to be determined by the Board on a case by case basis.

The donation may be made in cash or a legally binding pledge and should be paid within the time frame agreed upon by the board and the donor.

The naming of the facility will be in place for the time period agreed upon by the board and donor.

The Board reserves the right to remove names from facilities if the honoree or donor no longer meets the highest values and societal standards and/or when the gift remains unpaid beyond the time period agreed upon.

Except as otherwise permitted in this policy or Arkansas law, the District shall not name any building, structure, or facility, paid for in whole or in part with District funds, for an individual living at the time of its completion who, in the ten (10) years preceding its construction, was elected, or held, a federal, state, county, or municipal office and received a salary for his/her service.

Exceptions to the preceding paragraph may be made when a building, structure, or facility is a constructed through the use of at least 50% private funds or, the name refers to:

1. an individual(s) living at the time of its completion and who has historical significance;
2. an individual who is or has been a prisoner of war; or
3. a living individual who is at least 75 years of age and is retired.
