Dear Geneva Teachers, Staff and Community,

The Geneva Area City School District wishes to inform you that the Local Health Department is investigating cases of COVID-19 at Geneva Middle School. During the time that the case was potentially infectious, the student was only at Geneva Middle School for practice on 11/9/20 after regular school hours. The student is a remote student for all other school times. The student received a positive test result as of today (11/13/20) and the district was notified.

COVID-19 is a contagious respiratory disease that is thought to spread mainly from person-to-person from people who are in close contact. Generally, close contact is defined as being within 6 feet for 15 minutes or more. Symptoms of COVID-19 typically appear 2-14 days after exposure and may include fever/chills, cough, shortness of breath or difficult breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea. For more information visit: www.coronavirus.ohio.gov.

The Local Health Department will be calling all close contacts in this matter. It is highly important that all contacts answer or return health department calls in this very important matter. If you have concerns, the Local Health Departments can be reached between 8:00 a.m. to 4:30 p.m. weekdays at:

- Ashtabula County Health Department, Jefferson, OH (440) 576-6010
- Ashtabula City Health Department, Ashtabula, OH (440) 992-7123
- Conneaut City Health Department, Conneaut, OH (440) 593-3087

The best way to prevent COVID-19 is to practice social distancing; wash your hands often; avoid touching your eyes, nose, and mouth; wear a facemask; cover cough and sneezes; don't leave your home when you are sick, clean and disinfect high-touch surfaces often, and monitor your health daily.

Sincerely,

Eric M. Kujala
Superintendent
