**Dial 4 Screening for Preschool age Children
in the MVR3 School District**

All children 3-5 years old in the MVR-III School District are eligible to be screened once a school year. Children are screened in the areas of communications, gross motor, fine motor, problem solving, personal-social, hearing and vision. The screenings can provide valuable information on growth and development as well as early detection of potential problems which may prevent later difficulties in school. You do not need to be enrolled in P.A.T. to have your child screened. The screenings take place at the Doris Hoffman Early Learning Center.
