November 18, 2020

Terrier Family,

I hope this letter finds each of you doing well and staying healthy as we move into the Thanksgiving Holiday. I just wanted to take a minute to discuss a few things we need to bring your attention to as we move toward Thanksgiving.

The first thing I would like to do is thank each of you for working with us to keep kids at home who are not feeling well. I feel like that has really helped us avoid a major surge in COVID cases and other sickness as well. I also urge you to continue this process as we move forward and continue to monitor your child's health and keep them home if they are not feeling well. With your help, we can keep our students healthy and in school.

Second, we are going to dismiss school next Monday and Tuesday to create some social distancing for our students and teachers. We hope this will help us avoid some issues that may arise with the increase in COVID cases and give some relief to those who have quarantined this week. These days will be days out of school and not distance learning days. I realize this is a calendar change, but feel it is necessary to slow things down. I hope you and your family can use this time to avoid sickness and share quality time within your household.

I know we have sprung some random days off in the last couple of weeks, but these help us with lessening quarantine cases and help keep kids in school, so please understand this actually benefits us when looking at the big picture. We do not take any of this lightly and want you to know we have discussed this process at length before making these changes.

I cannot thank each of you enough for the diligence you have shown in helping us navigate these unprecedented times. I know there has been an abundance of conflicting information out there and want to encourage you to call me if you have any questions. You have truly made this process easier to navigate and helped keep our students learning in the classroom.

God Bless,

Rob Friesen
