A Student News Periodical

October Edition

Upcoming Events

By Ulita Dale and
James Hickerson

Halloween Carnival was on October 27. Everyone came with their amazing costumes. The Halloween Carnival was from 6:30pm to 8:30 pm.

Updates:

Halloween Carnival

By Mandy McKindy and
Ulita Dale

The McGrath School Halloween Carnival was fun this year. There were new booths, kids had amazing costumes, there was food, and a cake walk. There was also a costume contest. The winners for the costume contest of 6th grade and down were Aiden Howard as the scariest, Cayla Magnuson as the cutest, and Anavae Patterson as the funniest. Also, there was another costume contest for the 7th grade and up. Their winners were Mandy Mckindy as the cutest, Ella Dale as the scariest, and Kendra Chase as the funniest. All kids had great costumes. Kids seemed to enjoy the carnival very much.

Sports - Running

By Jaci McKindy

Ms. Kellie Pierce is coaching for the cross country running team. There are about seven to nine people that are doing cross country. First, they stretch for approximately fifteen minutes. Then, they went outside and do a couple laps around the school. Next, they run to Sand Island. Then, They take a break and run back to the school. They all commented that they liked it very much!

Ms. Mindi's 3-5 Class

By: Mandy McKindy

During the first month of school Ms. Mindi's class did a solar eclipse project, drawings, essays, and learning the multiplication table mentally. Seems fun!

On September 14, Ms. Mindi's class did a bake sale, They sold a whole bunch of stuff like cookies, brownies, cupcakes, lemonade, and many more. The students were very helpful with the bake goods.

Miss Kelli's Class Info

by Ulita Dale

In the beginning if the school year Miss Kelli's class has worked on some fun projects. In August the class gathered Fireweed flowers and plants and made Fireweed jam with labels. On September 10, they celebrated National Grandparent's Day with goulash, a dish that was originated in Hungary. Grandparents went into the class and ate with the students.

During the week of September 18, Miss Kelli's class was studying Johnny Appleseed (John Chapman). They baked Apple Muffins as a Johnny Appleseed project. Which their class must have had a lot of fun with their GREAT teacher!

Miss Kelli's class discussed substance we gather for winter; Moose, Fish and Berries seemed to be the topic in their discussion.

Testing for their class was scheduled for October 13 at the end of the quarter. Miss Kelli was also offering an after school tutoring program for K-2 from 2:30p.m-3:00p.m M-Th.

There will be a Halloween party for Miss Kelli's class on October 31 in the afternoon. Please bring costumes.

Thought for the week:

Do what is right, not what is easy.

Fish Wheel 2017

By James Hickerson

A fish wheel is a device for catching fish which operates much as a water-powered mill wheel. A wheel complete with baskets and paddles is situated on the river, usually upon a floating dock. The wheel rotates due to the current of the stream pressing the bottom basket or paddle that has swung down into the water.

The guy that was on the fish wheel (Kevin whitworth). He tied the fish wheel so it would stop. We got the Fish in our totes. There were 36 fish in the basket.

The questions we asked him were, what type of wood was it made out of? What kind of fish are caught? Approximately how many fish do we get a day? The Fish Wheel is made out of cottonwood. The kind of fish that it caught was Cisco, Broad and Humpback Whitefish. Also Bering Cisco, Grayling and Dogfish. It can hold up to 50-100 fish a day.

Science Labs 2017

By Kierra Egrass

A week after Spirit Camp, grades 6 through 12 went to one of the smaller ponds near the DNR helicopter landing pad and got some small samples of the water. We brought the samples back to the class and put a drop of water on a glass slide to see the content through a compound microscope. We got to see tiny organisms through the microscope. We all got different types of organisms. Some were even bioluminescent when we turned the microscope light off. It was so cool, but crazy!

McGrath School Elections

By Samuel Bobby

Vice President

According to Dakota she felt like she could do better. She volunteered two years as event coordinator in the past, and now she wanted to become a good vice president because she thought she could make a difference and beware of the importance in the student council. Vice presidents give ideas and coordinates when president. is gone.

President

Ivory Lyman ran for president and I asked why did you want to run for president? "Why not? Seems interesting I get to plan events and that is fun." Ivory said. What do you like about president? She said, "So far planning things and after all I am the president and I haven't done everything yet."

Treasurer

(Ulita's treasurer description) I asked what she like about being a treasurer and she said, "I like how I get to help the school be better in ways." When I asked what a treasurer does, she said "They count fundraiser money, keep track of school money and many other things.

Secretary

(Ella's sec/hist description) I asked Ella what do you like about being sec/Hist and she said "I get to help the school grow and also help plan events and stuff."
