December 1, 2020

Dear Parents and Guardians,

I am writing to inform you that today we were notified that a family member of a student has tested positive for the Coronavirus. Some family members who attend Wiscasset Elementary School and Wiscasset Middle High School have been in close contact and will now need to be quarantined for at least 14 days. The students have not tested positive at this time. As always, we will be following the CDC and Maine Department of Education Guidelines.

If we receive any information regarding further test results that could impact staff or students in our schools, we will inform you immediately and follow our Wiscasset School Department protocols with possible school closures, contact tracing, and extensive cleaning, and disinfecting.

The safety and welfare of all students and staff are our top priority for us as we enter into this holiday season. Please continue to follow the guidelines which have been established to keep you and your children healthy and safe.

Thank you for your continued support of our students and school district.

Respectfully,

Dr. Terry L. Wood
Superintendent of Schools, WSD
