Milton-Union Exempted Village Schools

December 2, 2020

Dear Students, Families, and Community Members of the Milton-Union Schools:

The district received verification that six students tested positive for COVID-19. Test results were positive or presumed positive from two high school, one middle school, and three elementary school students. Because school was not in session over the holiday weekend and coupled with symptom onset for each child, no additional contact tracing was necessary in any of these cases. The district continues to seek and receive advice and assistance from Miami County Public Health in the identification of next steps.

Not only will the district remain committed to safety protocols, but we also strive to maintain the privacy of and confidentiality for students, families, and employees. We hope everyone can remain mindful of safe practices and healthy decisions among our students, staff members, parents, and caregivers both in and outside of school. As always, thank you for your continued support, understanding, and patience.

Respectfully,

Brad Ritchey, Ph.D.
