Welcome to the Galaxy, home of the Mighty, Mills University Studies High School Comets. As an instructional leader, I am committed to serving students, parents, staff, and PCSSD. We aim to build relationships that foster a positive and hospitable culture for teachers and students to thrive. Our vision is simple. REACH them all and TEACH them all by fostering a culture of high expectation and rigor. The focus is on Equity and Excellence. Our focus is to set a clear and compelling direction to shape our culture for learning where all students can achieve.

From the Desk of
Duane Clayton, Principal

Parent Center

The Parent Information Center is located in the east corner of the school’s Media Center. The center is equipped with one desktop computer and other literature and seating. The center will provide parents with information regarding tutoring, wellness, next steps, and other pertinent material regarding the high school experience.

PTO

The Parent Teacher Organization (PTO) is a group of parents and teachers that work together to improve the quality of education in the school. The PTO provides support to teachers and students, and hosts various events and activities to promote family involvement. It is an opportunity to engage in online and in-person learning to prepare for college or the workforce.

Purple Cord Program

75 hours of Community Service Learning = 1 Academic Credit & Graduation Honor Cord

PBIS

is a three-tiered framework for improving and integrating all of the data, systems, and practices affecting student outcomes every day. Even though discipline data is tracked through the PBIS system, PBIS changes the focus from prevention to punishment to improve school safety and promote positive behavior.
