

Limited In-Person Instruction

Administration and staff are preparing for limited in-person instruction. This time on campus will occur in the afternoons during the Applied Learning Time from 1:30-3pm. This voluntary, supplemental instructional time is called Limited In-Person Instruction.

Cohorts of students, containing no more than twenty, will be assigned based on identified need for supplemental instruction. With current cohort and transportation restrictions, a student would receive, at maximum, one visit a week to a single classroom for an hour and a half.

Students participating in limited in-person instruction will be notified by school personnel regarding scheduling. While students are on campus they will be expected to be in masks, maintain 6ft of distance between others and check-in on time to designated screening locations.

If you are interested in having your child or children participate in Limited In-Person Instruction, please contact our office at 541-997-3884 by Friday, December 11th so that building staff can begin to coordinate and schedule cohort, activity and transportation groups for after the holiday break.
