F.   Old Business
None.

G.   New Business
1.   **Technology Update**
   a.   Review the RSU 57 Technology Plan
   The committee members reviewed the District Learning
   Technology Plan. Mr. Perkins reviewed the action steps outlined
   in each section and reported on the progress of each action. The
   Committee discussed where RSU 57 is in implementing
   technology in the schools.

   The next step will be for the Committee to design our own survey
   for parents or students. The results of this would help inform us

about the direction of the Committee for at least the remainder of the year.

2. **PR Discussions**
    a.   Review the redefining of school lines –
    The Transportation Committee is working on this. They are spending time reviewing all of the information and are taking things slow. The first step is to see if school lines should be redrawn to even out school populations.

    b.   Moving the school start time –
    The Committee discussed the implications of any move of the school start times. It was noted that we are tied to SRTC and would need to coordinate with them. We also discussed the implications and the effect it would have on students at each level such as what it would take to make these shifts in time.
