Understanding COVID-19 Mitigation Metrics

COMMUNITY TRANSMISSION: MINIMAL TO MODERATE

County Level Metrics

- 1.) Positivity less than 8%
- 2.) New cases per 100k < 50
- 3.) ICU Bed Availability > 20%
- 4.) CLI ED visits decreasing or stable

Then

100% In-Person Learning

- When **two of the four metrics** exceed these values for **two consecutive weeks**

COMMUNITY TRANSMISSION: SUBSTANTIAL CONTROLLED

County Level Metrics

- 1.) Positivity less than 15%
- 2.) New cases per 100k < 100
- 3.) ICU Bed Availability > 20%
- 4.) CLI ED visits decreasing or stable

Then

Hybrid Learning

- When **three of the four metrics** exceed the set values

COMMUNITY TRANSMISSION: SUBSTANTIAL UNCONTROLLED

County Level Metrics

- 1.) Positivity over 15%
- 2.) New cases per 100k > 100
- 3.) ICU Bed Availability < 20%
- 4.) CLI ED visits increasing

Then

Remote Learning

- When **three of the four metrics** are met
