

ENABLE DEVICE PERMISSIONS

Screen recording can be enabled from system preferences just like camera and microphone permissions.

Enable Teams/App Permissions through System Preferences

1. Open **System Preferences**
2. Click on **Security & Privacy**
3. Select **Privacy**
4. Scroll down to **Camera, Microphone, or Screen Recording**
5. Select the check next to **Teams** > **Quit Now** (it requires you to quit the app to enable)
6. Open **Teams** > Join **Meeting/Call**
7. Try using **microphone, camera, or screen share** previously requiring permission
