

The Medfield School Nurses would like to share some updated COVID-19 information to help answer some frequently asked questions.

- What do I do if my child has suspected COVID symptoms?
- Where do I go to get tested?
- What is the difference between isolation and quarantine?
- What is my responsibility if I decide to travel?

Please be mindful that staff and students **CANNOT** return to work/school and must continue to quarantine at home if they have a pending COVID-19 test. Currently, Medfield Public Schools requires a negative PCR (the gold standard test) to return to school. We cannot accept Rapid Tests at this time. If possible, please fax PCR results directly to our nurses' offices fax numbers listed below, so we can help determine when your child can safely return in person to school. Please note that if your child is a close contact of an individual testing positive for COVID-19 and you choose to shorten the quarantine period by testing, you must continue to assess your child (See Daily Home Screening) for the full 14 days. Please do not hesitate to reach out to your school nurse with any questions or concerns.
