## **New Quarantine Guidelines**

The Oklahoma State Department of Health has issued new quarantine guidelines that go into effect immediately.

These are the two most important pieces of the new policy when determining quarantine dates for students:

1. If the contact traced students remain symptom free up to day 10 of their quarantine, they can end quarantine and return to school on day 11 without receiving a negative test. They should continue to monitor for symptoms for an additional 4 days
2. If the contact traced students test 5 days after exposure to COVID or later and receive a negative test, they can end quarantine on day 7 and return to school on day 8. It is required that the returning student wears a face covering at school when around others for 3 days. They should continue to monitor for symptoms for an additional 4 days. A copy of the negative test results will need to be turned into the office before students can attend classes.
