

CURRICULUM AND INSTRUCTION**LIBRARY MEDIA MATERIAL SELECTION PROCESS**

Ohio County Schools believes that materials selected to implement and enrich the educational programs of the schools should reflect the culture of our community and the diversity of cultures that comprise our nation. Instructional resources should be selected to support the curriculum and meet the diversified interests, abilities, and maturity levels of the students. Media materials, to include electronic media and computer software, should stimulate thinking, provide both fact and opinion, and contribute to students' social, emotional, and intellectual growth.

The administration is directed to develop regulations and procedures to ensure this policy is accomplished.
