

**FISCAL MANAGEMENT****CREDIT CARDS**

Ohio County Schools recognizes that participating in commerce activity means being a part of an ever evolving environment. Not every situation will be the same and not every solution or payment can be completed in the same manner. As a result, it is imperative that the Ohio County Board of Education have credit card procedures in place as to both give direction and safeguard the county's assets. It is important to be able to use credit cards properly as to have the flexibility to meet the needs of both the county and other parties.
