

STAFF-STUDENT COMMUNICATIONS

It is the intent of the Commerce Board of Education to make students, parents, and guardians aware of allowable communications between students and staff.

School personnel shall refrain from communicating with students outside the school setting. An exception will apply if the school administration receives written consent from a student’s parents or guardian, which will outline the school related items that may be discussed and the preferred method of Staff-Student Communications.

If school personnel engage in communications with students outside the school setting and the communication conflicts with the written permission granted by the parent/guardian of the student, the employee shall be subject to disciplinary action by the school district. Such disciplinary action could include termination of employment with the school district.

Enrollment forms will ask if parents grant permission for coaches/teachers to contact students through group messaging.
