Menus were reviewed. Student shared their thoughts & made suggestions. They prefer when we serve the nachos separately. They like the new spicy chicken sandwich. Wanted to know if I could serve crispitos twice a month. They are glad I put Stromboli back on the menu. They think a BBQ salad will go over good

Nutrition Nuggets. High School journalism student are going to try to do a similar page & run it on the televisions at high school.

Body Walk. This was suggested but the person that was going to explain it could not make it today. This will be brought up at the next meeting.

National School Lunch Week. I asked what they thought about inviting community people next year during National School Lunch Week. They put together a list of people: school board, mayor, state representative, sheriff, hospital nutritionalist.

Will try to have our next meeting in September or October of next school year.
