To the Parent/Guardian of the Students that Eat Lunch in the LHS Aux Gym during First Lunch:

A student that eats lunch in the LHS Aux Gym has been experiencing symptoms of COVID-19 that have been consistent with recent positive test results. The infected student has been quarantined pending results. This student was around two people that have recently tested positive. The parents/guardians of all students having direct contact (within 6 feet of someone who has COVID-19 for at least 15 minutes) have been notified via phone. Through our contact tracing, your child is in the same lunch as the member and we wanted to communicate this information to all those in the lunch.

This letter is to inform everyone in the LHS Aux Gym during First Lunch in case your child begins experiencing symptoms. Please notify the school if they do. Below is a list of the symptoms impacting consideration for exclusion:

1. Fever (100.4 Degrees Fahrenheit or Greater)
2. Chills
3. Cough
4. Shortness of Breath or Difficulty Breathing
5. Fatigue
6. Muscle or Body Aches
7. Headache
8. New Loss of Taste or Smell
9. Sore Throat
10. Congestion or Runny Nose
11. Nausea or Vomiting
12. Diarrhea

For those called and are quarantined due to being a direct contact, it is recommended, but not required to be tested. Under the new quarantine guidelines, students may get a (rapid or PCR) COVID-19 test on days 5, 6 or 7 after exposure and return with a negative result on day 8. Please remember that a student may not return prior to obtaining test results. The second option would be to wait 10 days after exposure and return on day 11 if untested and no symptoms arise.

Please reach out to your student's school nurse or principal with questions.

Sincerely,

Karl Galey, Superintendent
