Revised AEBSD Administrative Requirements for Travel into the School Sites of the Aleutians East Borough

The Aleutians East Borough School District is prioritizing the safety of the students, staff and communities at large. Any staff and students that are traveling or have close contact with those traveling into their local communities must follow these guidelines before and while returning to school.

Guidelines for Students or Staff who have traveled outside of their community, or have close contact to an individual who has traveled outside of their community:

- Test for COVID-19 on the 1st, 7th and 14th day after returning to the community.
- After day 7, and a negative Covid-19 test result, students may return to class, or employees may return to work; however, a mask must be worn at all times and testing still completed on day 14, which then completes the quarantine.

Note: To reiterate, a hard quarantine of 7 days is required before returning to the school community.

In the absence of following the above protocols, a 14-day hard quarantine will be required.

In the event of close contact, whenever the individual who has traveled tests negative for COVID-19 on the 14th day after their return, the exposed staff or student may end their special protocol as well.

Essential Workforce/Critical Infrastructure Travel Amendment:

Staff who are traveling to conduct ***school district business*** within the Aleutians East Borough into areas with no Covid-19 cases, no suspected Covid-19 cases or no investigations into Covid-19 cases will be tested upon arrival at their destination and upon their return. Follow-up testing will occur at days 7 and 14 to fulfill the testing regimen associated with the related district travel. Employees who have returned from conducting business under the above category will be encouraged to wear a mask while fulfilling their 14 day working quarantine.

For questions regarding normal protocol at school, please contact your site administrator.

Sincerely,

Patrick Mayer,
Superintendent
