BUILDING COMMITTEE MEETING
RECOMMENDATION TO THE SCHOOL BOARD

Having carefully reviewed the Facility Needs Assessment;
Having thoughtfully considered recommendations of industry experts;
Having discussed and debated goals, pros, and cons of the options presented;

The Building Committee recommends that the Pond Cove / Middle School structure be replaced, and that ample funds be allocated for the renovation of the High School in order to allow it to function appropriately as it nears the end of its useful life. In particular, the committee recommends concurrent new construction of our lower school / middle school with a single bond and expedited time frame.
