

JUMP INTO JUDSON!

FAMILY EDITION

January 8, 2021

Star Students

Our students are doing fantastic work and deserve to be recognized! Each week, our teachers nominate a student in their class who exemplifies a model virtual learner. Such qualities teachers are looking for are great effort, participation, attendance, and task completion. On Friday mornings, the students' names are shared out at Morning Announcements.

Our Leadership Team met this week to build upon the STAR program so that it can be utilized in either an In Person or Remote Learning model. More to come!

Remote Learning Information

Remote Learning is still underway! Our teachers and families continue to do a nice job with navigating this way of teaching and learning. We are hopeful and excited for a January 19th return to In-Person learning. We miss everyone!

Attendance Matters!

A letter was sent out to all families on Monday, January 4th reiterating the importance of attendance during Remote Learning. It is so important that our students log on daily to receive the instruction required to achieve grade level standards.

Progress Monitoring

Prior to the winter break, iReady progress monitoring was given to our students. By analyzing this data, our teachers have been able to create enrichment and intervention groups for our daily WIN (What I Need) block.

Upcoming Events

Monday, January 18, 2021	Martin Luther King, Jr. Day
Tuesday, January 19, 2021	In-Person learning scheduled to resume Late Arrival Day for students (PD for staff)
