Step 2. Verify Ethnicity/Race (Required)

Dear Parent or Guardian:

Every school district is required to report to the Department of Education each year student data by race and ethnicity categories that are set by the federal government. The Department of Education does not report individual student data to the federal government but does report the total number of students in various categories in each school. These reports help us keep track of changes in student enrollments and ensure that all students receive the education programs and services to which they are entitled.

The federal government recently changed the reporting categories for student data. As a result, you have the opportunity to update the student data for your child. With the new reporting categories, you may now identify your child by ethnic group (either Hispanic/Latino or not Hispanic/Latino) and by one or more racial groups (American Indian/Alaska Native, Asian, Black/African-American, Native Hawaiian/Other Pacific Islander, White). Starting with the 2009-2010 school year, all schools will report student data to the Department of Education using the new categories.

For more information about the student data reporting categories for ethnicity and race, please contact the district office.

Sincerely,
Crystal Hesson,
Technology/SIS Supervisor
