

10th Street Code of Conduct

As a responsible student at 10th Street School, I agree to the importance of a safe learning environment. Each of us has to work together to make positive, appropriate behavior choices.

1. Speak up for others.
2. Talk things out with people I trust.
3. My opinion is important. I just have to remember how, when and where to make my voice be heard.
4. I will sit by people who help me be a successful student.
5. I will not spread rumors or make hurtful comments to or about others. These are the behaviors of a bully (a form of harassment).
6. Physical violence is **never** an option. I will not start or encourage a fight.
7. There is a difference between tattling and telling an adult about something I've seen or heard that will put my well being or the well being of others in danger. I promise to tell an adult.
8. I will remember that everyone is different. I will appreciate and respect those differences.
9. Remember to think BEFORE I act then:
 - I will be thoughtful and not bully or be aggressive toward others.
 - I will help those who are being bullied and not be a bystander
[tell a teacher, write a statement, encourage those being bullied to tell, etc.]
 - I will be a reporter and tell an adult at school and home.
 - I will be an "includer" and make friends with students who seem left out.
10. I will respect the learning environment by conducting myself in the commons as if I was in a library.
11. I will respect others by keeping my hands off other people and off other people's property.
12. I will help make 10th Street a positive learning environment for myself and everyone else.
