

# The Learning Center has moved.....

## The mission has not!

The Learning Center of Ellis County has relocated to The Hadley Center in suite 120 as of December 18<sup>th</sup>, 2020. The new location for the computer lab was decided on after several visits to other potential locations. The Hadley Center met the needs of the students regarding location, resources, and space.

The Learning Center currently has 58 traditional-aged students (8 new students since the start of semester 2) and 44 adult learners.

The Learning Center has implemented a 'quiet room' for the mental health needs of our students. It's a safe, calm, peaceful room where students can practice mindfulness and relaxation.

The Learning Center has graduated 10 students in the 2020-2021 school year with several more expected to earn their high school diploma in May.

Help me welcome our new registrar....  
Melisa Garrison!  
She started at The Learning Center on January 4<sup>th</sup>
