Market Day
The Original Fundraising Food Cooperative

marketday.com

Welcome Back to School from Market Day!!

This is the most unusual Welcome Back letter we've ever written. Unusual because a familiar back-to-school routine hasn't been...well...routinized since 2019.

"Mom Power" Flourishes with Market Day!

Market Day is a company founded originally by a Mom wanting to offer her daughter's school fundraising products beyond the typical bake sale offerings of the time. Over a period spanning more than three decades, Market Day became a fund-raising favorite for schools, offering exclusive, top-quality food products that families could use every day, all while supporting their school. Since 1979, Market Day has helped raise over \$500 million for local schools and other non-profits.

Today, moms make up most of our management team and several of us have been Market Day chair people in the past. We totally get the reality of your busy schedule, along with your commitment to your family, to your children's school, your eagerness to support school needs - AND the yearning to "Purchase with a Purpose" with fundraising products that are practical for everyday family use and enjoyment.

Market Day is Easier than Ever to Manage - AND Contact-Free

You probably remember the Market Day fundraising process is very simple:

For parents and other customers:

- Parents: order products anytime from the Market Day website. We're open 24/7! Just like other popular e-commerce sites, customers pay on-line. Market Day accepts all major credit cards.
- Orders ship in a cooler packed with dry ice via FedEx direct to the customer's front door.
- Your organization earns 10% of the total dollar amount on every order.

For you, the champion, and your volunteers:

- Our monthly toolkits provide materials to help you PROMOTE and BUILD AWARENESS about your Market Day fundraising program from the comfort of your home. All it takes is a computer and internet connection!
- You don't need to recruit an army of volunteers. With a small team of Market Day "ambassadors" to help you promote and advertise your Market Day program, along with the power of social media, it's easy to build excitement and engagement for products that are staples on every family menu - and SO DELICIOUS!
- Your Market Day program is a completely digital process. Be proactive in promoting and advertising the monthly Market Day specials. Use your school's newsletter, website, social media pages and email communications, and see how orders add up to help you reach your fundraising objectives. You don't need to leave the house - unless YOU want to!

www.MarketDay.com

The Market Day program raises money for your organization year-round. Plus - as much as we are all eager to get back together, Market Day generates great earnings for your organization through a contact-free process.

All these advantages, and best of all, Market Day still offers proprietary and exclusive family favorites like Chia/Nutcracker®, Pizza Katsars® and Chocolate Pudding Cakes to name just a few.

To Start Making Those Fundraising Dollars...

Check out our new on-line brochure for complete information on the Market Day program and simple ideas for promoting it to your customers.

Be sure to put the monthly Market Day toolkits to use to build awareness of your Market Day fundraising program.

Plus, our Market Day Community Coordinators can answer questions, help you get product samples, brainstorm ideas for special events and more. Send us a note at ADCC@marketday.com, and our Community Coordinator for your area will be in touch quickly.

From all us Moms at Market Day --

We thank you for your commitment to your school and your leadership in supporting its fundraising needs through Market Day. We are eager to work with you. Again, THANK YOU from Market Day!

Theresa Krueger, CEO

What is an A1C Test?

An A1C test is a blood analysis that measures the average glucose level in the blood for the last 3 months. A1C tests can be used to diagnose diabetes and prediabetes. An A1C test is also the main test used to in the management of diabetes.

Fast Needed

Risk Test for Prediabetes

1. If you are a woman, at one time, were you diagnosed with gestational diabetes?
 2. Do you have a mother, father, brother or sister with diabetes?
 3. Have you ever been diagnosed with high blood pressure?
 4. Have you ever been told you have diabetes or prediabetes?

If you responded **YES** to any of these questions, you may benefit from an

Remote Status Information

Remote Status Learners: The Elementary office will contact you when materials are ready to be picked up.

ALDEN HEBRON ELEMENTARY SCHOOL

STUDENTS ON REMOTE STATUS...

Remote Status is **NOT** a sick day or vacation but forced remote learning or quarantined

- Connect with your student's teacher, they will have the schedule.
- Login to Morning Mindfulness, Announcements, Whole groups (Reading/Math), and Specials (Art, PE, Music, Stem)
- If you have any questions that the teacher cannot answer, call the front office.

Thank you so much for your continued support and understanding. We are all in this together to make sure the kids in our community have the best possible educational experience!
Thank you!

-Mr. Slocum

Snow days & Inclement weather days

Inclement Weather Days

PLEASE NOTE: Snow Days will revert back to the traditional Snow Day and not a Remote Learning Day.

Dear District 19 Families:

As we transition from fall to winter, I'd like to take this opportunity to share the factors that will be considered when the decision is made to keep schools open or closed due to weather conditions. The hope is that by communicating this information before winter weather occurs, families can better understand how these decisions will be made and can create plans for inclement weather conditions.

It is our goal to keep schools open when possible, however, there may be instances when we find it necessary to close. If schools are closed, we try to make this decision before 5:00 a.m. when possible. Parents will be notified via phone call, text message, and email. Please ensure your contact information is up-to-date in PowerSchool so that you receive school closing announcements. Should your contact information need to be updated, please contact your school office. Please note that if no notification is given, schools will remain open.

Weather factors that might cause the school to be closed include snow, ice, and cold temperatures. As in most cases with snow, it is the timing, not the amount. Blowing/drifted, and/or the rate of snowfall has the greatest bearing on whether the school will be closed or open. Additionally, there may be days when it is extremely cold that schools will remain open. There is no magic temperature number, rather, we look at numerous factors, including actual air temperature, wind chill, the timing and duration of the low temperatures, and any warnings or watches issued by the National Weather Service.

The closing of school has a significant impact on families. We take the decision-making process seriously. When schools are closed, many parents have to make last-minute childcare arrangements, take time off work to stay home with their children, or leave children unsupervised at home. We do not want families to have to encounter these situations unless necessary. In addition to the educational benefits of keeping students in class, many students have their physical, social, and emotional needs met within the school setting. As a result, it is important to District 19 to keep our schools open and to continue to meet the needs of our students whenever possible.

We encourage families to think now about potential alternate arrangements for getting their children to school on days when the weather is cold and/or the roads and sidewalks are messy when schools remain open. This may include establishing carpools among friends or neighbors for students who typically walk to school, and/or setting up a plan to have a parent drive to a bus stop to keep kids warm in the car until the bus arrives. An alternate plan might also involve you, as the parent, needing to drop off your student at school on your way to work. If this is the case and would result in your child arriving late, we will work with your student to ensure they catch up on what they have missed.

Ultimately, as parents, you decide whether or not your child can make it to school on cold and messy weather days when schools remain open. We understand you will do what is best for your family and we respect your decision. Should you choose to keep your child at home, we ask that you contact your child's school office to inform them of your decision and report your child's absence.

Thank you for your support and partnership.

Sincerely,

Tiffany Elswick,
Dist. 19 Superintendent
