

AP Exams Will Begin in May!

To: Parents of AP Students and
All Students in AP Courses

This is a reminder that the 2023 AP Exams will begin Monday, May 1st - Wednesday, May 10th. If you attend the Newberry County Career Center or Piedmont Tech, you will not attend those classes on exam day during the specified exam time so that you can take the AP Exam with us. Please note, AP tests for Chemistry, Statistics, and Biology will be given in the afternoon, thus may run over into after school hours.

Please check with your AP teacher and the school website for the day your subject exam will be given and the room location you are to test. The AP Exam schedule is listed below. If you have any questions regarding AP Testing, please contact Ms. McAllister in the Counseling Dept.

Thank you, and happy testing!
