1/19/21

Boulevard Parents,

On Saturday, 1/16 Boulevard was contacted informing us that a student tested positive for COVID19. The child was last in school on Tuesday 1/12, developed symptoms on Wednesday, and was tested Thursday after symptoms did not improve.

We are working in conjunction with Fulton County Public Health and have completed contact tracing. Seven staff members and fifteen students from the class and afterschool program will remain in quarantine through 1/22.

Please note that The Health Insurance Portability and Accountability Act (HIPAA) and other privacy laws restrict us from disclosing or confirming any personally identifiable information. We cannot identify anyone who has tested positive or who is in quarantine.

Thank you,  
Brian DiPasquale
