January 20, 2021

Participation: December: 16 days, 17,154 meals.

Remote Meals: The remote meal program is holding steady with participation. The schedule that we ended with in December should carry us through to the end of the school year.

CACFP: Our After School Meal Program at LMS has settled into a routine with anywhere from 25 - 35 students picking up a meal every day that they are in school. They either take the meals home or eat them at school to get them through the afternoon activities until they do go home.

CACFP Review: We are currently undergoing a review of our CACFP (Child and Adult Care Food Program). Even though our programs all fall under the umbrella of USDA, they have different rules, different groups of people in charge of compliance and reviews, ...etc. which leads to a whole lot of paperwork that somebody must look at on a regular basis. This is our first review of this program because we have only been operating it for a couple of years.

LMS: The kitchen at LMS will be shut down at some point in the not-so-distant future. When that happens our LMS staff will move to OTHS. All meals will be prepared at OTHS and transported from to LMS for service. The LMS staff will return to LMS to serve the meals, so students may not notice any difference since they eat in the classrooms anyway. We currently satellite meals to Alton, Bradley, KidsPeace and OTOY, so that part of the process should (fingers crossed!) run smoothly.

Please don't hesitate to call or email if you have questions.

Masked Superintendent delivering meals safely to students learning remotely in RSU #34.

Respectfully Submitted,

Stephanie
