Dear Parents and Guardians,

February is National Children's Dental Health Month. The American Dental Association began a program over a decade ago to provide free dental services to underserved children. This program is Give Kids a Smile Day. On the first Friday in February, thousands of the nation's dentists and their dental team members provide free oral health care services to children across the country.

Each year, here in NJ, more than 100 dental practices and clinics participate in this one-day event. **In 2021, we are expanding the Give Kids A Smile program and celebrating all month long.** Many local dentists will be providing free dental services for children ages 12 and under.
