Rochelle ISD elementary and middle school students recently participated in the Rochelle ISD UIL Invitational. With the current restrictions, we were forced to forgo the traditional in-person district competition due to concerns with the COVID-19 virus. We instead decided to participate in a virtual competition with several neighboring school districts. Both the elementary team and the middle school team were awarded first place in the competition by capitalizing on the growth that we have experienced over the last several years.

Between all of the academic and speaking events, Rochelle ISD elementary and middle school students walked away with 160 individual awards for finishing in the top six in a particular competition – of those 160 individual awards, almost 50 of them were for first place. In addition to this, we had 24 teams win their respective competitions.

Our faculty, staff, and administrative team are exceedingly pleased with the results and are proud of the efforts of all members of the Hornet UIL Team. The participants worked hard all fall, and the results showcase that dedication we are all so proud of. Our coaching staff has now turned their attention to working with the high school academic team and preparing for a couple of virtual invitational meets as well as the district competition scheduled for later this semester.
