Parents of NCE 7 – 12th Grade Students,

I want to thank you for the support of our school, especially during this trying time. Your encouragement of good COVID behaviors, at home and in the community, has helped us keep our kids in school so they can learn “in person”! Currently the number of cases are down in the county, which is attributed to all of the extra efforts from students, families and residents of our district.

With that said, starting Monday, February 1st, all 7-12th grade students will start “in person” learning four (4) days a week. Students will be in school on Mondays, Tuesdays, Thursdays and Fridays. We will continue to have Wednesdays be a Distance Learning day, so we can do a deep cleaning of the classrooms.

There will be no changes for Elementary students, as they will continue to have school 5 days per week.

We will continue to practice good COVID behaviors at school. Our students and staff are counting on you to continue doing the same at home and in the community.

Again, thank you for your support of our school and all you are doing to ensure we can keep our students learning “in person”.

Sincerely,

Mr. Flaten
Principal

Mr. Nudell
Superintendent
