In loving Memory.....

Becky

*I'll never forget that awful day in July,
This was the day my worse dream came true.
My sister sat down on my bed,
And explained God had taken you.*

*She told me about the crash
In which you had died,
I screamed and yelled
Until I could no longer move, and I just cried.*

*We drove to the hospital
The world outside a total blur,
Then we took the elevator
And I crept down the hall to where you were.*

*Your mom saw me coming
Then wrapped me in her arms so tight,
I cried on her shoulder
Wishing I would have been there for you last night.*

*I went to your room
Where your lifeless body lay,
Then holding your soft hand
I closed my eyes and silently prayed.*

*All the memories of us together
Ran through my head,
This wasn't happening
I refused to believe you were dead.*

*I brushed back your tangled hair
Then gently rubbed my hand down your cheek,
You lay there so still
Looking precious, yet weak.*

*I wanted you to wake up
And show me those big brown eyes,
How could this be happening
It wasn't time to say good-bye.*

*You were always there for me
My strength, my pride, my best friend,
And now life is just a count down
To the day I'll see you again.*

Melissa L. Jerset

*A very dear friend of all of ours went
home this summer. Becky will be
remembered by those who knew her.
This is for you Becky! I love
you!!!!*

Following the great tradition of wins from last season the '99 season started off the same. We earned a first place trophy at every divisional meet. It seemed our school possessed great talent in actors in all catagories, from serious solo to humerous duo.

Above: Pookie & Bean & Megan

We woke up early every morning and got home late every night. Stopping at any fast food store on the way home for a quick bite to eat. We meet exciting people, and created special memories we will never forget.

Juniors

Class of 2000

Juniors are a special breed. They aren't quite at the top of the ladder as far as seniority goes, but they're still upper-classmen none the less. They can still get bossed around by the Seniors, but they give it right back to frosh and sophmores twice as hard. So the next time you get hassled by a Senior, remember all the little people.

Wrestling

Wrestling is one of the hardest sports in the world. To be a successful wrestler requires not only strength and speed but brains and guts. Not only does one have to out last your opponent, but

one also has to outsmart him. Wrestling is a game of intelligence just like chess. You have to use your brain to position yourself perfectly in order to strike your opponent and defeat him. On this

year's wrestling squad, they not only had some great athletes but some great thinkers too. They had some **minor** setbacks, but got over them and took 3rd at Divisionals. All in all it was a great season.

In Memory of

ERIC HANSON

To thine own self be true
was the statement they made
For as long as I live I shall obey
Day after day I pray I can
Make it without having gone astray
I know I've done wrong I wish I'd do right
I hope I can last at least one more night
I know I must find a way out of this fright
To thine own self be true it's beautifully true
but sadly to say it's the thing I cannot foredue
Because of me you will never again
See the light of day it was by my hand
You were so treterously slain
I wanted so much to speak of
How much you meant and still
Mean to me but the words to thine own self be true
Tear me apart for it was
Thine own self that put a bullet in you.

Friends at Frenchtown

**By: Melissa Jerset &
Tana Creighton**

At Frenchtown friends are an important thing, some of us have been together since grade school on the swings.

We used to play barbies and eat ice cream cones, nowadays we chase boys and talk on the phone.

Whenever you're in trouble or just having a bad day, you know you can count on your friends who always have the right words to say.

Those high school loves will come and steal our hearts, but nothing, including guys, could tear our friendship apart.

At home and at school we find time to spend together, and we know the partying and fun will go on forever.

Yet graduation will come and we'll all have to say good-bye, when we'll give each other our last hugs with tears in our eyes.

Though whether we're apart or together in the end, I know we'll always be there as great friends.

A Tribute to Mr. Johnston

Top Right: July 3, 1969, Happy Birthday Dad!

Middle Left: Who's Who?

Bottom: Why's only Mr. J smiling?

Mr. J has been teaching in Frenchtown High School for the past 29 years. He's 53 years old and considered one of the greatest history teachers around. His biggest pet peeve is watching students who have the ability to do well, but don't care enough to try. Mr. J loves teaching at Frenchtown because of the wonderful kids. He said, "They preserve me, they make me feel young."

One of Mr. J's well known qualities is his love and obsession for cinnamon rolls. His favorite saying is: "BEATS THE HECK OUTTA ME." He also strongly believes in what you give in life will come right back to you.

Mr. J fought in the Vietnam War for 9 months. While in Vietnam, he fell in love with his wife through letters. He then came back to Frenchtown to teach choir. Later he moved to the High School to teach history. You can still find him at Frenchtown High School fully enjoying his teaching career.

History Days 1999

A Year to Remember

1890-1920

One night Mr. J. attended a Frenchtown basketball game during which he observed two students singing the national anthem. This got him thinking about a Broadway and Vaudeville production. The song helped him decide on the theme for this year's History Days. Students seemed pleased and excited about this time period. Many interesting Vaudeville comedy and musical acts were done by the Junior class. Mr. J. said he was pleased with how the students were doing, as well as with how their audience accepted them. Jessie Williams who portrayed Mary Pickford commented, "What a day!" Amy Snook who toured the History Days said, "Kris Fielding was HOT!" Mr. J. also commented, "That the day went smoothly and pleasantly."

The 1998-99 track season began on March 15 with one of the largest turnouts of boys and girls in recent memory. This season, from the very beginning, looked very promising for a number of reasons. The Broncs were returning a good number of past lettermen and had a large number of new athletes turn out for practice. As the year progressed, the Broncs' performances turned out to be very successful. They placed very well in the larger meets that we participated. As they headed to the District and Divisional meets, the Broncs performed their very best, by claiming the championships at both meets.

Due to the need to complete the yearbook before the closing of the season, we will not be able to share the results of the State meet. We would like to wish the competing athletes the best of luck. We will miss the names of the Seniors that have been part of this very successful team, but the tradition that you have carried on and inherited from athletes before will now be passed on to those that follow.

Yearbook Staff!!

TOP RIGHT: Tana shows her true self to the world. Hey does anyone have a banana?

MIDDLE LEFT: Brian works hard during this class period.

MIDDLE RIGHT: Misty takes a break from being head chief to pose for the camera.

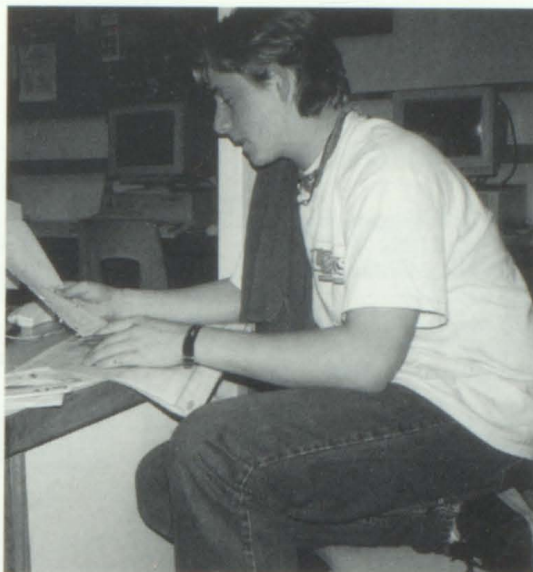

As the year progressed everyone grew close. We will never forget all of the disagreements we had. But, all in all we had a good year. Thank you Ms. Garrison for putting up with us and being a wonderful teacher.

RIGHT: Becky, Tana, Amy, Tracy, and Ms. Garrison give big smiles to the camera.

TOP LEFT: Tana helps Stephi figure out our wonderful computer system.

TOP RIGHT: James puts forth effort into finishing the ad page.

MIDDLE: How mature they all look. Who said yearbook was ever stressful? Look at what it did to them.

Putting together a yearbook is no small task. We basically are publishing a hard-cover book. This is a full time commitment for the staff. Editing, fundraising, page creation and completion, not to mention computer problems can all be challenging. This year I am losing four staff members that will be nearly impossible to replace. Huge thanks to Tracy, Tana, Amy, and Charlie for all they have done for me and for this fine book. JG

The Yearbook Staff

The yearbook staff, headed up by Ms. Garrison, have worked hard all year long to bring you the best yearbook in the state. And they succeeded. Not only do they work on the yearbook, but some moonlight as staff on the

school newsletter you love so much. So next time you open your yearbook to bask in all its glory, I hope you hold a special place in your heart for the small group of students that made all of it possible.
The Yearbook Staff.
