OUR STORY

"BEP is an amazing program that makes all the littles feel safe and loved! Going to school can feel so scary, but BEP gives them the confidence and excitement of learning in a caring environment!"
-Collean Smith

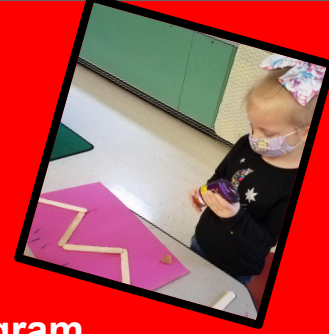

The Boone Extended Preschool (BEP) program began in 2018 when the Elementary team realized there was a real need to provide affordable quality childcare. BEP is for preschool students attending the Boone Community School District four-year-old preschool program. Families have several different scheduling options to fit their needs including before and after school care. Activities in the BEP classroom are structured around preschool academic and social-emotional learning targets. Themes and activities are chosen based on the student's interests and needs.

I am extremely lucky to have my daughter enrolled in the Boone Extended Preschool program. My daughter had truly enjoyed her time at BEP. The classroom is a very lively place where students and staff interact with each other through active learning. The teachers make a real effort to get to each child in depth and I love seeing all of the images that are shared throughout the day. My daughter has flourished during her time at BEP. She has made many wonderful friends and has learned so many new and exciting things. I have already recommended this program to many of our friends and will continue to do, because I am confident that any parent whose child attends this program will have nothing but positive and joyful experiences.-The Beach family.

I love all day BEP Days!
We have fun and I like when we have dance parties!
-BEP Student
