Western Beaver Families and Community:

The ultimate goal of the District's Phased Reopening Plan is to open the buildings to in person instruction five days a week as soon as we can do so safely. The District has been cautious throughout the pandemic to discuss schedules that are more than a week or two in the future because increases in our County or District COVID statistics could impact our Phased Reopening Plan. Additionally, the District is also required to adhere to any State or Federal orders. However, we also understand that families require as much notice as possible with any schedule changes. Consequently, following is our Phased Reopening Plan by week for the month of February.

We would continue to ask families to follow the Health & Safety Protocols. As a reminder, all students and staff should take the Daily Health Self-Assessment each morning before coming to school. This Assessment can be found on the District Website Live Feed. Should your response on the assessment indicate your child should stay home, please communicate that information with building administration and the School Nurse. Additionally, the Health & Safety protocols include the wearing of an appropriate face covering (mask), at all times. This facemask must cover the person's mouth and nose at all times. All individuals must remain socially distanced while moving throughout the building, while eating or drinking and, to the maximum extent possible, while in the classroom. The staff will continue to instruct students on other Health & Safety protocols that are specific to the programs and curriculum they instruct.

We must all make it our individual and family obligation and responsibility to report any COVID related symptoms or illness immediately to the appropriate school administrator and the School Nurses. **If anyone in your household has been tested for COVID, any student in the house should remain home until the results of the test are determined.** Any student or staff member that believes they may have recently been exposed to COVID, are currently quarantined due to a COVID related illness, or are unsure if they should return to school next week must contact the appropriate school administrator and the School Nurses prior to returning to school.

It will take all of us working together, following all mitigation and Health & Safety protocols, and communicating with our administration and School Nurses to sustain in-person (face-to-face) learning for our students.

February 1 – February 5: Hybrid Model

This week will follow our Hybrid Learning Model with COHORT A and COHORT B.
