

# School District of Pickens County

*Building success beyond the classroom*

## SCHOOLGY INFORMATION

The School District of Pickens County uses Schoology for both face-to-face and virtual programs. Schoology is an integrated learning management solution that provides course management, mobile learning, and support for system wide communication. Schoology enables our students, parents and teachers to engage with learning materials and their school community from the classroom and beyond. We look forward to using Schoology in our classrooms this year to enhance connectivity and communication across our district.

With Schoology, students can digitally submit homework assignments, review grades, participate in interactive discussions, receive announcements and feedback, take tests, write academic blogs, and more. As a parent, you will be able to view your child's activity and receive updates from teachers via the Schoology app or by email.

You will need your child's code to access the SDPC Schoology system. You should have a unique access code for each child you have enrolled in Pickens County schools. Schools sent this home with students at the start of the school year. Contact your school's data entry clerk if you need assistance getting the code.

If you previously created a parent account in Schoology for an older child, you will continue to use that login for this school year. Login at <https://app.schoology.com/enrollment/code/paccadd> to add the Access Code for another child to your existing account.

We value your participation in your child's education and we encourage you to read Schoology's Privacy Policy (<https://www.schoology.com/privacy>) and Terms of Use (<https://www.schoology.com/terms-of-use>). Student progress and activity will be monitored by faculty to ensure a safe, secure and controlled environment.

### How to Create and Use Your Parent Account in Schoology

- In your browser, go to [www.schoology.com](http://www.schoology.com).
- Click Sign Up at the top of the page and choose Parent.
- Enter your child's Access Code and click Continue.
- Enter your name, email address and password.
- Click Register to complete the process.
- After you log in, you can browse your child's activities by selecting their name from the top right dropdown.

Once you have set up your account, don't forget to download the Schoology App! Search for it in the App Store for Apple devices or in Google Play for Android phones. Once you have set up your account, you can log in to the app to easily view your child's information right from your phone! Login to the app using the email and password you set up when you created your account. The Schoology App is very user-friendly!

If you have questions or feedback regarding Schoology, please contact your school and ask for the Schoology trainer.
