

Bowman County Schools Food Services

Beginning Thursday, September 10th, breakfast and lunch is FREE to all students enrolled at Bowman County Schools. The USDA has granted another extension for free meals until May 26, 2021 or until funds run out. This means ALL students in Grades K-12 will receive free breakfast and lunch until May 26, 2021 or until funds run out, regardless of their free/reduced status.

The free meals include students in school, students on a hybrid schedule, or enrolled in the district distance learning program.

What you need to know:

- We encourage you to fill out a Free & Reduced Application at any time if you feel you will qualify. This will not affect the free meals being served at this time. It will ensure that you are identified as F & R or Full Pay when this extension ends.
- The free meal is intended to be a complete meal. Students wanting to purchase a la carte items, such as an additional milk, will be charged for these items.
- Any money on your student's account will remain until charges begin again.
- Meals will be available to pick up for distance learners, not including Homeschool students. Families will sign up for lunches online.

If you have questions, please call the Bowman County School District at 701-523-3358.
