

**Health and Wellness Advisory Committee
2020-21 Mid-Year report to the School Committee**

We are reviewing the following policies for best practice and systemic bias, updating them appropriately, and will be forwarding them to the Policy Committee after the review is complete.

- Smoking and Use of Electronic Cigarettes/Vaping or Other Similar Devices
- Alcohol Sensor Device and Alcohol-Breathalyzer
- Communicable Disease
- Substance Abuse Policy and Substance Abuse Violation Policy

We completed the Adolescent Sexual Health Survey which is being reviewed by the administration. Once all of those who helped initially with the Survey have the time and capacity to revisit the results, we will meet again to determine a plan.

We are scheduled to review the PE curriculum later this winter.

We will be reviewing the Health and Wellness Policy later this winter as well, and will forward any recommendations to the Policy Committee and School Committee for consideration by the end of the year.
