This notice is to provide a periodic update on the status of asbestos containing materials (ACM) in our school building operated by the district as required by the Asbestos Hazard Emergency Response Act (AHERA).

### **Periodic Surveillance:**

Monitoring of all facilities is done at six-month intervals to determine if there are any changes in the ACM. All facilities were up-to-date as of our last check in February of 2022.

### **Re-Inspection:**

Re-inspections are conducted on a three-year cycle. The recent Re-inspection was completed in July of 2022.

### **Planned Response Actions:**

None are necessary or planned. Will monitor on a six-month basis and maintain as needed.
