**Participation in the NAFIS, National Association for Federally Impacted Schools, conferences are key to advocacy and implementation of Federal Impact Aid Funds. These funds compromise between 12-20% of the Baraga Area Schools annual budget. The Superintendent of Baraga Area Schools is also the Michigan State Chair for the Association. The conference consists of updates on Federal Education Funding and Policy, direct contact with the U.S. Department of Education staff, and program advocacy meetings with legislative offices.
