A message from

**Dr. Rae Villebrun
Superintendent**

Dear Parents/Guardians,

The safety of your child was at the forefront of our minds as the district determined what educational opportunities would look like in the fall. We understand that Distance Learning is going to be a preference for some families and you will be supported in that decision. If you decide you want your child in the building, we welcome them back. Personal Protective Equipment and strict cleaning methods will be used. We ask for your help by sending your child to school only if they are well and expecting them to wear a mask when it is appropriate for them to wear the mask. Only students who have a medical reason will be allowed to not wear a mask. If your child is not medically fit to wear a mask, please check with your physician to determine whether attending school in person is the best option. If appropriate, they may wear a face shield.

Each of the district's plans will include appropriate learning activities that will include standards based and rigorous lessons whether the student is at home learning or in the building. Our goal is to provide lessons that use technology, discussion, and activities that will increase the knowledge of our students.

Introduction

In March 2020, Floodwood School District closed its school building to students due to the COVID-19 outbreak and the Governor's Emergency Executive Order 20-02, issued March 15, 2020. For the remainder of the spring semester, students engaged in distance learning.

In planning for the coming school year, the Minnesota Department of Education (MDE) has requested school districts to plan for three different scenarios going into the 2020-2021 school year. Those three scenarios include:

- **Scenario 1: In-person learning for all students.** Creating as much space as possible between students and teachers that is feasible during the day, but is not held to strictly enforcing the 6 feet of social distancing.
- **Scenario 2: Return students to school buildings implementing a hybrid model.** Following strict social distancing and capacity limits to 50% maximum occupancy. Social distance of at least six feet between people must always occur.
- **Scenario 3: Distance Learning Only**

The Restart Blueprint is based on the MDH 2020-2021 *Planning Guide for Schools*, MDE's *Guidance for Minnesota Public Schools: 2020-2021 School Year Planning* and current public health recommendations at the time this document was developed, which include:

- Maintain a distance of six-feet between individuals
- Wear face masks or coverings
- Screen for COVID-19 symptoms
- Practice good hygiene protocols, including hand washing, cleaning and disinfecting
- Limit group gatherings
- Plan for short-term school closures, should there be a suspect or confirmed COVID-19 case

This Blueprint is a working document to be updated as changes occur. It summarizes the methods Floodwood School District will utilize in all three scenarios.

Communication

Taskforce

Floodwood School District has formed a taskforce to work on the modifications needed for the upcoming school year. The team includes the following people.

Team Member	Title
Rae Villebrun	Superintendent
Allyn Clark	Director of Buildings & Grounds
Taylor Dickinson	IEA, Inc. Consultant
Siobain Riley	Head Cook
Larry Baker	Technology Coordinator
Lois Person	Administrative Assistant
Sarah Marshall	School Nurse
Jessica Larson	Director of Transportation
Emma Stupke	Guidance Counselor

Amanda Fjeld	Behavioral/Instructional Coach
Sarah Lindstrom	Teacher
Sara Hanson	Teacher
Jennifer Bartsch	Teacher
Erik Root	Teacher
Geraldine Davidson	Ed. Minnesota President

Rae Villebrun, Superintendent and Sarah Marshall, School Nurse serves as the point of contact for all COVID-19 related matters. Their information will be included on all communications.

Rae Villebrun will determine what tasks student's involvement will be helpful on, and Emma Stupke will involve students in the implementation of the task.

Communication Methods

The District will release regular communication updates in the following ways:

- Weekly email from Rae Villebrun, Superintendent to all staff
- Images (school and community newspaper), released monthly for students, parents and guardians
- Weekly staff meeting with Rae Villebrun, Superintendent with teaching staff on Google Meet

The District will continue to utilize the district website and Facebook for updating staff, students, parents/guardians, and the public. Written documentation will be available at the District Office for parents/guardians who do not have internet access.

Instant Alert (messaging system) will be utilized to provide parents/guardians and staff with immediate updates when necessary.

Posters will be present within the facility, including at the following locations:

- At all handwashing sinks to remind everyone of good handwashing practices
- On entry doors to remind people who have symptoms not to enter
- At entries notifying people of the screening methods occurring

Template Messaging

Message templates have been assembled for:

- A letter informing staff, students and parents of the MDE scenarios, notifying them that the district is complying with MDE recommendations and has completed a restart plan for the three scenarios.
- A template letter that can be used, should school cancellations need to occur due to a known or suspected case of COVID-19 in district facilities.
- A summary letter, outlining the changes taking place within the district to be provided to parents/guardians, students and staff after the MDE announcement is made on what scenario will be followed.
- A template letter notifying staff, students and parents of the changes taking place regarding athletics.

Mental Health & Wellness

The COVID-19 pandemic is causing stress, fear, and anxiety for many people. The District will provide staff, families, and students (age-appropriate) with information on how to access resources for mental health and wellness in the following ways.

Floodwood School District has the following mental health professionals available:

- Emma Stupke, (K-12) Guidance Counselor
- Marissa Stilt, Mental Health Therapist through North Homes, Inc.
- Marissa Stilt, Children's Therapeutic Skills Support through North Homes, Inc.

SCENARIO 1

Students will all be provided with information on reaching counseling staff. Their contact information and hours will be provided to students to allow them to reach out for assistance.

Students that continually receive assistance will continue to receive assistance as per usual.

SCENARIO 2

Students who are in the building can access services in the ways listed in scenario 1. Students at home will receive information on how to reach the counseling staff electronically.

Students that continually receive assistance, who are not in the building will be reached out to electronically. The Behavioral/Instructional Coach will be utilized this year and will assist in identifying students that may need assistance.

Elementary guidance lessons may be scheduled during this time following teacher requests. Elementary small group counseling will continue as per usual.

SCENARIO 3

Students at home will receive information on how to reach the counseling staff electronically.

Students that continually receive assistance, who are not in the building will be reached out to electronically. The Behavioral/Instructional Coach will be utilized this year and will assist in identifying students that may need assistance.

See above note in Scenario 2 for weekly guidance lessons. Elementary small group counseling will occur virtually. Students will be contacted by counseling staff with details.

Reporting Methods

Floodwood School District will request parents, guardians and staff to self-report if they or their student have COVID-19 symptoms, a positive test or have been in close contact with someone with COVID-19.

Parents, guardians or staff will report to School Nurse, Sarah Marshall at (218) 476-2285 or smarshall@isd698.org.

Training and Education

The following staff categories have received training on the Restart Blueprint in the specific areas listed below. Records of training for the staff groups are located on Google Drive.

<p>Maintenance & Custodial Staff</p> <ul style="list-style-type: none"> • Currently known COVID-19 Facts • Cleaning Methods and Schedule • Employee Right-to-Know • Personal Protective Equipment • District's Restart Blueprint Overview • Identifying Symptomatic Students • Screening Yourself 	<p>Transportation Staff</p> <ul style="list-style-type: none"> • Currently known COVID-19 Facts • Cleaning Methods and Schedule • Employee Right-to-Know • Personal Protective Equipment • District's Restart Blueprint Overview • Identifying Symptomatic Students • Screening Yourself

Cross-Training and Absence Planning

Floodwood School District is preparing for absences of essential staff members by cross training. Backup staff members have been assigned for essential roles, shown below.

Team Member	Backup/Fill-In
Rae Villebrun	Steve Hall– Board Chair Amanda Fjeld– Instructional and Behavioral Coach Geraldine Davidson – Ed. Minnesota Floodwood Union, President
Allyn Clark	Cindy VanGuilder or John Belden
Siobain Riley	TBD
Teresa Hart	IASC
Lois Persons	School Secretary

Floodwood School District is planning to remain as flexible as possible to accommodate staff and students, while following individual Union Contracts.

In order to prepare for the possible need for more substitute teachers/positions, the District will hold a training for all current substitutes during the school in-service day to prepare for the need to fill-in, in positions that they may not normally perform.

Screenings

Floodwood School District will complete proactive screenings of students, visitors and staff entering the buildings.

MDH and CDC recommend that people are screened when entering the building. The MDH COVID-19 screening poster will be posted at building entrances to remind people entering of the symptoms of COVID-19. Posters will also be placed, notifying people entering that the District will be screening occupants.

To assist parents/guardians, students, and staff in determining when to come into the building based on symptoms, Floodwood School District will provide and post the MDH Decision Tree factsheet.

SCENARIO 1 & 2

Floodwood School District will implement the following screening process for students taking the bus, driving themselves, dropped off, walking, staff and visitors:

- The screener will wear a face covering.
- The screener will visually inspect the person for signs of illness, which could include: flushed cheeks, rapid breathing/difficulty breathing, fatigue or extreme fussiness.
- The screener will conduct a temperature screening if showing symptoms using a non-contact thermometer and random spot checks
- Those with symptoms listed on the MDH decision tree will be asked to stay home until symptoms resolve and/or consider testing for COVID-19 . Students coughing or with a runny nose with documented allergies will be asked to stay home until symptoms are under control to prevent spread of germs. Any student who has been ill in the last 24 hours will be asked to stay home.
- The students will be screened when they come to school. We will also rely on parents to report any concerns or keep students home if they are sick.

Community Expectations

Hand Washing

Proper hand washing practices are very important to reduce the spread of any virus. Posters will be placed at all sinks to remind everyone of good hand washing practices.

Hand sanitizer will be provided to all staff members for their desks and workspaces. Hand washing is more effective than hand sanitizer in reducing germs. However, in instances where handwashing is not readily available, hand sanitizer can be used. Visibly dirty or greasy hands should still be washed as soon as feasible. Custodial staff will check mounted hand sanitizer and hand washing supplies during each daily cleaning of the area.

Teachers are expected to encourage proper hand washing with all students.

Every individual that enters the building will be provided with hand sanitizer.

Face Coverings

SCENARIO 1

Staff and students of Floodwood School District will wear a face covering properly when in the building. That may include a face mask or plastic face shield (if MD note is provided). Both options will be provided and encouraged wear together, along with instructions on proper use and cleaning.

SCENARIO 2

Employees of Floodwood School District will wear a face covering properly when in the building. That may include a face mask and/or plastic face shield (if MD note is provided). Both options will be provided and encouraged to wear together, along with instructions on proper use and cleaning.

Students, K-12th grade, are required to wear face coverings properly. That may include a face mask and/or plastic face shield (if MD note is provided). They will be made available by the school if needed. Students may choose to wear one of their own, providing that it is school appropriate. Pre-K will be encouraged to wear a mask.

MDH face covering guidelines should be followed when wearing coverings. This includes: washing hands before applying, washing hands after taking off, not touching the covering repeatedly and keeping it clean.

The CDC and MDH do not recommend masks be worn by anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance. They are also not recommended for children who cannot manage them on their own and are not to be used on children under the age of two years old. If a student has a disability that doesn't allow for them to wear a mask, they will not be required to wear a mask if presented with a MD note.

Protecting Those at Higher Risk

Floodwood School District will accommodate the needs of students and staff who are at higher risk of serious illness from COVID-19. This includes honoring requests of parents who may elect to continue distance learning due to an underlying medical condition of the student or others in their home.

A questionnaire will be sent to all staff and families to allow them to self-identify as high risk for illness. Rae Villebrun, Superintendent will review all staff and students that have identified as high-risk and reach out to them with individual plans.

Facilities

Physical Barriers

Floodwood School District will install barriers on certain administrative desks and are available in every classroom.

To lessen the traffic into the office, there is a window in the hallway, next to the office for papers, lunch money, etc.

Drop bins labeled with teachers' names will be placed in the entryway to allow parents and guardians to drop off items for students as needed.

Gatherings and Visitors

To comply with current public health orders, Floodwood School District will be limiting non-essential building visitors. It is also required that student drop-off and pick-up occur outside the building, rather than inside.

Large group gatherings will occur virtually while this plan is in effect.

Water and Ventilation Systems

Water systems will be flushed according to the CDC guidelines as outlined in the link below.

<https://www.cdc.gov/coronavirus/2019-ncov/php/building-water-system.html>

Ventilation systems will be assessed to determine they are operating properly. Dampers are opened to bring in as much outdoor air as possible.

Space Considerations

Playgrounds

SCENARIO 1 & 2

Playgrounds will remain open and will be cleaned daily, per CDC guidelines. This includes cleaning high touch surfaces (swing chains, slides and grab handles) using soap and water. Cleaning will take place during fair weather, as it is not possible during the colder weather due to freezing.

Students will be directed to wash hands before and after playground use.

Playground usage will occur as a class, in order to keep groups as static/same as possible. Therefore, there will be fewer students on the playground at a time and the groups will not intermingle with other classes.

Library

SCENARIO 1 & 2

Library books will be pre-selected for elementary students. They will be placed in labeled, zip-top bags.

When returned, the bags will be placed in a bin, labeled with the date returned. Bins of books will sit for 24-72 hours prior to being wiped and re-shelved.

Technology

SCENARIO 1 & 2

Each student will have a tech device and clean it in the presence of their teachers.

The copy area for staff will remain open and in-use. Those using the machine will be asked to use a provided alcohol wipe to wipe clean when done. A poster reminding employees of the need to clean after each use will be posted.

Gymnasium

SCENARIO 1 &2

Physical Education classes will be done outside when weather permits. When physical education equipment is used, it will be placed in a “dirty” bin, located in the gym and custodians will clean the toys and the bin at the end of the day, prior to putting away.

Sporting Events & Locker Rooms

Floodwood School District follows the recommendations and requirements outlined in MDH document, [COVID-19 Sports Guidance for Youth and Adults](#) (12/28/20)

Coaches will receive communications outlining the provisions as follows:

- Sports practices will resume January 4th. Games and scrimmages with other teams will be allowed starting January 14th. Practices will follow MDH recommendations and requirements outlined in MDH document, [COVID-19 Sports Guidance for Youth and Adults](#) (12/28/20)
- Face coverings must be worn at all times, including practices and games in accordance with MDH guidance and Executive Order 20-81.
 - Types of face coverings can include a cloth mask, a neck gaiter, a scarf, a bandanna, or a religious face covering.
 - CDC recommends using two layers of fabric when making a cloth face covering. Face coverings that are made of thinner single-layer fabric such as certain types of masks, scarves, neck gaiters, or bandannas may not be as effective for blocking droplets that come out when speaking, coughing, or sneezing and should not be used unless there are no alternatives. ▪
 - A face covering must cover the nose and mouth completely. The covering should not be overly tight or restrictive and should feel comfortable to wear.
 - Any masks that incorporate a valve that is designed to facilitate easy exhaling, mesh masks, or masks with openings, holes, visible gaps in the design or material, or vents are not sufficient face coverings because they allow droplets to be released from the mask.
 - People are not permitted to remove their face coverings during activities that involve a high level of exertion. For guidance on when a person refuses to wear a face covering, or is unable to wear a face covering due to a disability, medical, or mental health condition, please see Frequently Asked Questions About the Requirement to Wear Face Coverings (www.health.state.mn.us/diseases/coronavirus/facecoverfaq.html).
- Non-game settings are required not to exceed 25 people per pod, indoors and outdoors
Intermixing of pods is kept to a minimum.
- Coaches are required to conduct screenings of anyone present at a practice and games. The logs will need to have players name and turn them in daily to the main office.
- Water fountains are shut down; however, bottle fillers will remain open.
- The locker rooms are open, but just for changing purposes. No clothing/gear is to be left in the locker rooms overnight
- The weight room/fitness center is open not to exceed
- Coaches are responsible for cleaning equipment used. Custodial staff will be responsible for cleaning restrooms and locker rooms used.
- Maintain at least 6 feet between participants when they are not playing (on the bench, in the dugout, on the sidelines, etc.)

- Spectators are not allowed at practices. No more than two spectators per participant for indoor events.
 - Participants who need assistance to participate in the activity due to age, medical condition, or disability, are each allowed to have one parent, guardian, or adult support person present to support them. Parents, guardians, and support persons must maintain social distancing of at least six feet from persons in other households. .
- Names, phone numbers, and/or emails should be collected as part of the reservations so that quick notification can be done if an individual develops COVID-19.
- Spectators remain at least 12 feet away from the closest participant - meaning, at least 12 feet from the field, the bench, or the court, whichever is closest.
- Maintain 6 feet between spectators or household groups. Allow only household groups to purchase tickets for adjacent seating in a single transaction.
- Instructions posted for patrons throughout the venue at entrances, and inform patrons: not to enter if they are experiencing symptoms, list the venue's attendance limits, reminder that they are required to adhere to hygiene and social distancing instructions, signage and markings; and they are required to follow the venue's requirements for wearing face coverings.
- Any staff, volunteer, or participants who are sick must stay home and follow MDH guidelines.

Floor Markings

Floor markings made of non-skid materials, will be placed in areas that may see congestion, such as: outside of restrooms, at communal sinks, halls and in offices.

Classrooms

SCENARIO 1

Classrooms will be limited to essential teaching tools. Limiting the number of personal items in the classroom will lighten the cleaning load of the custodial staff. During this time, rugs, and all other non-standard furniture (couches, chairs, bean bag chairs, etc.) will not be allowed in the classroom as they present cleaning challenges.

Tables in the elementary rooms may be used when space allows for students to be distanced. Individual desks will also be utilized.

Rugs will be removed from K to 3rd grade rooms and will be replaced with labeled, individual mats.

SCENARIO 2

Classrooms will be limited to essential teaching tools. Limiting the number of personal items in the classroom will lighten the cleaning load of the custodial staff. During this time, rugs, and all other non-standard furniture (couches, chairs, bean bag chairs, etc.) will not be allowed in the classroom as they present cleaning challenges.

Markings will be placed on the floors, marking distances of six feet for desk spacing. It was noted that most classrooms have a usable floor space of 25 feet by 30 feet which allows for sixteen (16) desks per classroom.

Tables in the elementary rooms may be used when space allows for students to be distanced according to the MDH and CDC guidelines. Individual desks will also be utilized.

Rugs will be removed from K to 3rd grade rooms and will be replaced with labeled, individual mats.

Drinking Fountains

Drinking fountains will be turned off at this time. Bottle fillers will remain in use and will be added to the list of cleaning items.

Cafeteria

SCENARIO 1

The cafeteria will be opened, and the benches will be marked allowing for seating distance between students.

SCENARIO 2

tables will be removed and placed with desk spaced 6 feet apart all facing the same direction.

Students at home will receive pre-packaged meals available for pickup between 11:45 and 12:30 daily..

SCENARIO 3

Students at home will receive pre-packaged meals available for pickup or delivery.

Nurse's Room/Area

The nurse's office will only allow one student at a time. The current "office" will accommodate a student or staff member should they need to be isolated until they can leave the building if they are showing symptoms of COVID-19.

Teachers and other staff members will need to call the nurse's office before sending a student if showing any symptoms on the MDH Decision Tree: [COVID-19 Decision Tree for People in Schools, Youth, and Child Care Programs](#)

Childcare

SCENARIO 2 &3

Families will be surveyed to determine if they are critical workers that are in need of childcare for school-age children 12 years of age and under. Staffing will be determined by the number of children needing childcare. The school-age care for children of critical workers is intended for extreme circumstances in which no parent or guardian is at home, as all of the parents or legal guardians in the child's household are Tier 1 critical workers.

Scheduling

SCENARIO 1

All students will return to in-person learning within the building.

SCENARIO 2

To comply with scenario 2 and the strict social distancing guidelines, Floodwood School District will adopt a hybrid scheduling model.

K-6 classes will continue as daily classes. Distance Learning will take place on Wednesday.

High school students will be split into two groups, A and B. Group A will be in the building on Monday and Tuesdays. Group B will be in the building on Thursday and Friday. Distance learning will take place on Wednesdays.

Another option for scenario 2 is 7-12 will be distance learning, pre-k through 6 will continue as daily classes. Distance learning will take place on Wednesdays.

Special education students will have their IEP's reviewed and their schedules will be tailored to the individual person.

A schedule will be shared with families if scenario 2 is necessary.

Class Schedules

SCENARIO 1

Students will proceed from class to class in one way traffic through the hallway.

Band: Class sizes will be limited to maintain social distancing. The current band room space allows for thirty (30) students to participate in class while maintaining eight-feet of distance to account for instrument spacing. Wind Instruments will have bell covers and students are wearing specialized masks..

Industrial Arts: Shop equipment will be routinely cleaned. Hand sanitizer will be provided to be used prior to entering the room, exiting the room and when hands are soiled.

Art: After art class supplies are used, students place items in tub for cleaning. The teacher will be responsible for care and cleaning of supplies.

SCENARIO 2

Elementary students will remain in their classrooms, rather than changing groups and classes. This is with the exception of physical education class. Art and music classes will be brought into the classrooms. If the high school/middle school is distance learning then students will go to physical education, art and music classrooms.

Arrival and Dismissal

SCENARIO 1 & 2

Students and staff that transport themselves to school or walk will enter through the main entrance. School vehicles will drop off at the playground entrance. It is also required that student drop-off and pick-up occur outside the building, rather than inside.

At this time, based on the survey responses from the district families, Floodwood School District is planning to remain with the traditional start/stop times.

Staff will monitor the arrival and dismissal times to curtail congregating and ensure students go straight from vehicles to classrooms and vice versa.

Staff members will be allowed to access the building outside of standard hours of 7 AM to 4 PM, Monday through Friday. They are responsible for screening themselves at the screening station each morning.

Transportation

SCENARIO 1

Under scenario 1, more space is required to be present between people. Floodwood School District will utilize every other bus seat, with families/households sitting together. Masks will be required to ride the bus to school.

The bus will load from back to front. Seats will be marked, indicating where students may sit.

Hand sanitizer will be available on all transportation vehicles.

SCENARIO 2

Limit the number of people on transportation vehicles to 50% occupancy.

The bus will load from back to front. Seats will be marked, indicating where students may sit.

Household members may be seated in rows together.

Facility Cleaning Methods and Considerations

Cleaning Considerations

Floodwood School District has prepared in depth cleaning practices to prevent the exposure of COVID-19. Key elements include:

- Staff will utilize Hillyard QT-TB Disinfectant, which is an approved disinfectant on American Chemistry Council approved list.
<https://www.americanchemistry.com/Novel-Coronavirus-Fighting-Products-List.pdf>
- The dwell time of the product is five minutes.
- The SDS states that the PPE is required and includes chemical resistant rubber gloves and goggles or safety glasses.
- The SDS is available to staff in the custodial area or on the Google Drive.
- The containers are pre-labeled with GHS compliant labels.
- Staff have received training on good cleaning practices and Employee Right-to-Know. Records are located on Google Drive.

When technology items are needing to be cleaned, alcohol wipes will be utilized to prevent damage to the equipment.

Routine Cleaning

MDH and CDC recommend routine cleaning and disinfection occur to assist in prevention of the virus spread. Floodwood School District accomplishes this through routine cleaning of high touch points as listed below, per CDC guidelines.

Internal custodial staff completes routine cleaning:

1. Wear chemical resistant gloves and safety glasses or goggles
2. If the surface is visibly dirty – Clean using soap & water

3. Disinfect surfaces using disinfectant provided and paper towels and or disposable scrub pads. The product needs to remain wet, on the surface for the designated amount of time.
4. Use a garbage bag for your waste. When full, place garbage in the dumpster.
5. Remove gloves and then wash hands thoroughly with warm water and soap for at least 20 seconds.

Cleaning with Suspected or Confirmed Case of COVID-19

MDH and CDC recommend additional cleaning measures take place should there be a known or suspect COVID-19 case within the building. Cleaning would occur in all locations where that person was present. The CDC recommends proceeding with regular cleaning if you receive this information seven days or more since the person has been in the facility.

Internal custodial staff completes the cleaning sequence below should there be a suspect or confirmed case:

1. Vacate the area - Leave windows open for circulation
2. Allow the space to ventilate for at least 24 hours, or more if feasible before cleaning
3. Wear chemical resistant gloves, clothing coverings and safety glasses or goggles
4. If the surface is visibly dirty – Clean using soap & water
5. Disinfect surfaces using disinfectant provided and paper towels and/or disposable scrub pads. The product needs to remain wet, on the surface for the designated amount of time.
6. Use a garbage bag for your waste. When full, place garbage in the dumpster.
7. Remove gloves and then wash hands thoroughly with warm water and soap for at least 20 seconds.

Special Cleaning Considerations

Toys in Classrooms

During this time, toys in classrooms that cannot be cleaned and sanitized will not be used.

After use they are placed in a separate bin and cleaned by the instructor by cleaning with water and detergent, rinsing, sanitizing with an EPA-registered disinfectant, rinsing again, and air-drying.

Porous Surfaces

During this time, unnecessary rugs and other porous objects have been removed from classrooms. Other porous surfaces may include: chairs, furniture, rugs, linens, clothing, etc. If porous surfaces do need to be cleaned, the following steps will be followed:

- Handle laundry wearing gloves
- Transport laundry in disposable garbage bags when possible OR clean and disinfect the method of transportation
- Do not shake laundry out
- Wash on hottest water setting with regular detergent
- Dry thoroughly

Handling Suspected or Confirmed Cases

Floodwood School District will proceed as follows with suspect or confirmed cases:

- The person will be separated and held in the isolation room within the nurse's office until they are able to be picked up by a parent or guardian
- While waiting they will be under visual supervision of a staff member
- The staff member and person waiting will be requested to wear face masks, unless a person is unconscious, has trouble breathing or is incapacitated
- Cleaning steps outlined in the cleaning section will be followed, ensuring that communal spaces such as restrooms and copy rooms the person used are included
- MDH will be notified of confirmed COVID-19 cases of students or staff. It will be reported by emailing health.schools.covid19@state.mn.us and the MDH RedCap.

If it is determined that the person is in need of transportation home, Floodwood School District will use district transportation methods to bring the person home. If medical care is needed, 911 will be called.

Appendix A

Posters

Stop the Spread of Germs

Help prevent the spread of respiratory diseases like COVID-19.

Avoid close contact with people who are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Avoid touching your eyes, nose, and mouth.

When in public, wear a cloth face covering over your nose and mouth.

Clean and disinfect frequently touched objects and surfaces.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.

cdc.gov/coronavirus

STAY HOME IF YOU'RE SICK

If you're sick, stay home, rest, and remember to:

Cover your coughs
and sneezes with a
tissue or your sleeve.

Wash your hands
often with soap
and water.

Clean frequently touched
surfaces and objects
(for example, TV remotes
and computers).

Prevent the Spread of COVID-19

Stay home if you are sick. Symptoms can include fever, cough, shortness of breath, chills, headache, muscle pain, sore throat, or loss of taste or smell.

**Wash your
hands.**

**Stay close
to home.**

**Stay 6 feet
from others.**

For more information, visit health.mn.gov
HOTLINE: 651-201-3920 or 1-800-657-3903

DON'T FORGET TO WASH

Don't forget to scrub between your fingers, under your nails, and the top of your hands.

How to Safely Wear and Take Off a Cloth Face Covering

Accessible: <https://www.cdc.gov/coronavirus/2019-nCoV/prevent-getting-sick/diy-cloth-face-coverings.html>

WEAR YOUR FACE COVERING CORRECTLY

- Wash your hands before putting on your face covering
- Put it over your nose and mouth and secure it under your chin
- Try to fit it snugly against the sides of your face
- Make sure you can breathe easily
- Do not place a mask on a child younger than 2

USE THE FACE COVERING TO HELP PROTECT OTHERS

- Wear a face covering to help protect others in case you're infected but don't have symptoms
- Keep the covering on your face the entire time you're in public
- Don't put the covering around your neck or up on your forehead
- Don't touch the face covering, and, if you do, clean your hands

FOLLOW EVERYDAY HEALTH HABITS

- Stay at least 6 feet away from others
- Avoid contact with people who are sick
- Wash your hands often, with soap and water, for at least 20 seconds each time
- Use hand sanitizer if soap and water are not available

TAKE OFF YOUR CLOTH FACE COVERING CAREFULLY, WHEN YOU'RE HOME

- Untie the strings behind your head or stretch the ear loops
- Handle only by the ear loops or ties
- Fold outside corners together
- Place covering in the washing machine
- Wash your hands with soap and water

Cloth face coverings are not surgical masks or N-95 respirators, both of which should be saved for health care workers and other medical first responders.

For instructions on making a cloth face covering, see:

[cdc.gov/coronavirus](https://www.cdc.gov/coronavirus)

Appendix B

[MDH Resources/Handouts](#)

Is it COVID-19?

COVID-19 symptoms can include fever, cough, and shortness of breath. This may be similar to other illnesses, like the flu and common cold. Many people with COVID-19 have mild or few symptoms, and some may have no symptoms at all.

If you are able to manage your symptoms at home, you don't need to seek care or get a COVID-19 test. Contact your medical provider for any symptoms that are severe. For medical emergencies, such as difficulty breathing, call 911.

SYMPTOMS	COVID-19	FLU	COLD	ALLERGIES
 Cough	Often	Often	Sometimes	Sometimes
 Fever	Often	Often	Rarely	Never
 Body aches	Often	Often	Rarely	Never
 Shortness of breath	Sometimes	Sometimes	Rarely	Rarely
 Headache	Sometimes	Often	Sometimes	Sometimes
 Fatigue	Sometimes	Often	Sometimes	Sometimes
 Sore throat	Sometimes	Sometimes	Sometimes	Never
 Loss of taste or smell	Sometimes	Rarely	Rarely	Rarely
 Diarrhea	Sometimes	Rarely	Never	Never
 Chest pain or pressure	Rarely	Rarely	Never	Never
 Runny nose	Rarely	Sometimes	Often	Often
 Sneezing	Rarely	Sometimes	Often	Often
 Watery eyes	Never	Never	Never	Often

CONDUCT HEALTH SCREENING EACH TIME EMPLOYEES OR VISITORS ENTER THE FACILITY.

You may also opt to conduct temperature screening if it can be done with proper social distancing, protection, and hygiene protocols. However, temperature screening is not required.

If a worker or visitor answers "Yes" to any of the screening questions or has a measured temperature above 100.4°F, they should be advised to go home, stay away from other people, and contact their health care provider.

Visitor and Employee Health Screening Checklist

Have you had any of the following symptoms since your last day at work or the last time you were here that you cannot attribute to another health condition?

Please answer "Yes" or "No" to each question. Do you have:

- Fever (100.4°F or higher), or feeling feverish?**
- Chills?**
- A new cough?**
- Shortness of breath?**
- A new sore throat?**
- New muscle aches?**
- New headache?**
- New loss of smell or taste?**

COVID-19 Decision Tree for People in Schools, Youth, and Child Care Programs

Follow the appropriate path if a child, student, or staff person is experiencing the following symptoms consistent with COVID-19:

- More common: fever greater than or equal to 100.4°F, new onset and/or worsening cough, difficulty breathing, new loss of taste or smell.
- Less common: sore throat, nausea, vomiting, diarrhea, chills, muscle pain, excessive fatigue, new onset of severe headache, new onset of nasal congestion or runny nose.

Wipes		
Disinfectant Spray		
Rags/Paper Towels		
Hand Sanitizer in Bottles		
Hand Sanitizer Stations		
Drop-Off/Pick-Up Signs for Parents/Guardians		
Handwashing Reminder Signs		
Library Bins for Used Books		
Library Bags for Books		
Chrome Book Cleaning Kits (Instructions and Solution)		
Posters for Cleaning – Copy machine, break room, shop equipment, art supplies		
Gym Bins for Used Equipment		
Tape for Floor Markings for Desks		
Extra Mats for Pre-Kindergarten & Kindergarten		
Consumables for Cafeteria/Meals		

Table 2: Plan Audit

COMMUNICATION	<i>Date Completed</i>
Posters are present at all handwashing sinks	
Posters are present on all entry doors	
Posters are present at entries notifying people of the screening methods	
Template messaging is complete for school cancellations	
Template messaging is complete to provide a summary of the Restart Blueprint	

TRAINING	<i>Date Completed</i>
Maintenance/custodial staff received training	
Transportation staff received training	
All other staff received training	
Parents and guardians were provided with educational materials	

SCREENINGS	<i>Date Completed</i>
Screening stations are present with: a barrier, gloves, face covering, thermometers and wipes.	
Stations are	
All other staff received training	
Parents and guardians were provided with educational materials	

COMMUNITY EXPECTATIONS	<i>Date Completed</i>
Hand sanitizer is present on all desks	
Face covering options are available for all staff members with instructions on how to clean	
Barriers are present on administrative desks	
Signs are present to instruct parents and guardians to have pickup and drop-off take place outdoors	

SPACE CONSIDERATIONS	<i>Date Completed</i>
Library: Bags are ready for students for books to be placed and a bin is present for used books	
Technology: Wipes are present by copier machines, a poster reminding people to clean the copy machine after use and cleaning solution bottles are ready to be distributed to houses to clean chrome books	
Gymnasium: Bin is present in the gym to collect used equipment needing to be cleaned and disinfecting products are present for the instructor	
Hallways: Floor markings are present	
Classrooms: Rooms do not have excess items, rooms do not have rugs present, floor markings are present on the floor to mark desk placement and tables have been replaced with desks	
Drinking Fountains: Fountains are shut down	
Cafeteria: Cafeteria has supplies necessary to pre-package meals	
Nurse's Room: Isolation room has been set-up in the nurse's office	
Industrial Art Room: Disinfecting wipes are present	
Art Room: Disinfecting wipes are present	

CLEANING	<i>Date Completed</i>
Staff has Hillyard QT-TB disinfectant present	
Container is labeled	
Safety Data Sheet is available	

Staff have received training	
High touch audit has been laminated and provided to cleaning staff	
Staff have chemical resistant gloves available

APPENDIX E

Capacity Audit

Floodwood School District

Space Assessments

Purpose of this assessment is to determine the number of students that will be able to use each classroom while maintaining six feet of distancing while also comparing that number to the Fire Marshal's 50% occupancy rating.

Classroom Number	Occupancy Load Calculations			Social Distancing Calculations					Other Considerations
	Total Square Footage	Classroom Type	50% Occupancy	Usable Floor Space (Length x Width)	Usable Square Footage	Number of Desks that can be Spaced 6' Apart in a Grid	Total Number		
				Length in Feet	Width in Feet	Desks	Desks	Desks
