

Hello HESD Family,

Below are a couple of updates that we would like to make you aware of.

OptumServe State Approved Testing Site

We are happy to share that our second application for a state-operated, drive-through testing site at Blackstock Junior High School has been approved....YAY! The site, facilitated by OptumServ, will be available to the public beginning Tuesday, February 16, 2021. The site will operate seven days per week from 8:00 am to 8:00 pm and will offer a maximum of 330 tests per day. In addition, Fridays have been blocked for HESD staff only....Double YAY! We will begin with staff only, but if we find we have enough room to offer testing to staff family members, we will let you know.

OptumServe sites operate by appointment, but HESD staff members only need to create an OptumServe account. *You will not need to schedule an appointment if using the testing site on a Friday, and you will be able to visit anytime during the operation hours.* When visiting the testing site on a Friday, please have your school/District identification to show you are a HESD employee.

Click on the link to create your account prior to visiting the testing site:

Kaiser Permanente COVID-19 Vaccination Webinar

Kaiser Permanente is hosting a vaccine informational webinar for ALL HESD staff, Kaiser members and non-members, on Monday, February 22nd from 3:00 - 4:00. The webinar is specifically designed for HESD staff. Dr. Marc Hoffman will speak about the clinical side of COVID-19 and address several of the most frequently asked questions they've received related to the vaccine. Click [here](#) for the flier and zoom link.

Thank you for all that you do for our students!! Have a restful holiday weekend :)

Carlos
